LEASES.

D. Kempner & Son have leased for Alfred N. Cohen, the corner store, 8th av. and 38th st, to Abraham Berman, for a term of years, also the entire basement in same building, to Charles K. Starr, for bowling alleys. Also to Charles Frohman, building, 410 West 47th st, for theatrical storage.

John J. Bogert has leased for Wm. Pollard, the 5-sty stable, 17 Morton st, to the Metropolitan Milk & Cream Co. for a term of 10 years.

Chris. Schierloh leased the large store at 767 10th av, for R. M. Bent for 3 years at $1,500 per year.

Phinney & Corsa have leased for George L. Felt the Hotel Maryland, the new fireproof apartment hotel now nearing completion at 104 and 106 West 49th st, 100 feet from 6th av, on lot 43x100, for a term of fifteen years, at an aggregate rental of about $300,000. The lessee is John P. Reilly, formerly of the York.

Chas. E. Duross has leased the sixth loft of the new 9-sty building at 42 West 15th st, for George Fuchs to Messrs. Gitskey & Bastianelli for a term of years, and the seventh loft of the same building to Joseph Cooper for a term of years; also the first loft of the Herring building, at the junction of 14th st, 9th av and Hudson st, for John H. Hudson to the Hefner Gilding Co. And has sold the lease of the private house, 63 7th av, for Mr. John Moyer.

Ames & Co. were the brokers who leased for Jno Martin the 6-sty hotel property, No. 147, 149 and 151 West 35th st, to Charles Jaimes, formerly proprietor of the Brevoort House, and F. J. Bangs of the Sturtevant Hotel for a term of years at an aggregate rental of $180,000. The hotel will be extensively improved and altered and will be called "The Sturtevant."

Albert B. Ashforth has made for the Knickerbocker Trust Co. in their new building on the northwest corner of 5th av and 34th st the following leases, all for a long term of years: To the Blakeslee Art Galleries, now on the southeast corner of 34th st, the entire second floor; to A. Miller, the westerly store on 34th st; to Geo. H. Richmond, the two basement floors on 34th st, and to the New York Co-Operative Society, the easterly basement store with the vault under the sidewalk on 5th av and on 34th st. The rents paid in each instance, it is said, establish a new record for high rents on 5th av, the rent per square foot of the second floor being one of the highest paid outside of the financial district.

OUT OF TOWN.

Dovale & Thiery have sold the Long Branch Casino & Pier Co.'s property, at the foot of Broadway, Long Branch.

## Real Estate Notes.

Horace S. Ely & Co. will move on April 27 to their new offices at 21 Liberty st.

Julia P. Jay is the buyer of 37 West 10th st, reported in our last issue, the price is $36,750.

Joseph L. Ennis, well known in the real estate world, is now connected with J. Romaine Brown & Co.

C. E. Williams and Samuel H. Martin have been elected members of the Board of Real Estate Brokers.

Louis Voelker states that 422 7th av, owned by him, has not been sold, and is not in the market for sale.

Morris Weinstein and H. E. Distelhurst were the sellers of the plot 50.5x90 at the southwest corner of Park av and 117th st.

Dovale & Thiery, real estate brokers, will remove on May 1 their offices from Columbus av and 80th st, to No. 416 Columbus av, near 81st st.

The Leonard Moody Real Estate Co., of Brooklyn, will remove on May 1 their offices to larger quarters at No. 187 Montague st, next door to the Real Estate Exchange.

The recent purchase of a 6th av corner by an electrician has been followed by the purchase of an inside parcel on the same avenue by another electrician, which seems to indicate that the electricians are doing quite well.

Edward Kohn & Co. are now comfortably located in their new offices at 713 Broadway, corner Washington place, and are busy with numerous propositions preparatory to closing leases and sales of property.

D. H. Scully's office at 57 East 125th st is centrally and conveniently located and well equipped for the despatch of a general real estate business. Mr. Scully has many desirable parcels for sale and makes a specialty of exchanging property.

Henry E. Loney has joined forces with the Lawyers' Title Insurance Company, of New York. He has been appointed assistant appraiser of that company at its offices 37 Liberty st, this city.

Seldom does it happen that a business man having two offices in different sections is discommoded by the demolition or renovation of both. Such, however, is the experience of George Ranger, the energetic realty worker, who removes from 237 to 241 West 125th st, and from 111 to 115 Broadway. Another coincidence is that he moves in each instance only two doors from the old offices.

Chas. E. Schuyler & Co., of 2780 Broadway, corner of 107th st, to better accommodate their large clientele and keep up with the times, have opened a branch office at 51 Liberty st, where the firm will also deal in realty investment securities, which latter it is interesting to note will be called daily at noon at the Real Estate Board of Brokers, commencing next September. Mr. Geo. W. Rowan, who for several years has been associated with Messrs. Schuyler's up-town office, will have charge of the Liberty st branch.

Mr. Lindheim & Co. have sold for the Central National Realty and Construction Co. to builders for improvement with 3-sty dwellings lots on the north side of 5th st between 8th and 9th avs for $4,250 each. This is part of the debt taken in trade for the Cherbourg which trade was made by the same brokers.

Opposition to the widening of Suffolk st developed before the Local Board, to which the matter was recently referred by the Board of Aldermen, following the recommendation of the Board of Estimate, that it be broadened to 100 ft. north and south of the Williamsburg Bridge, with the result that the Local Board has decided against the improvement. As a compensating proposition, the opponents suggested a hearing this week on the widening of Allen st, a matter which the Local Board will take up again on May 5.

# The World of Building

## The Labor Situation.

The three most important chapters in the history of the current labor episode are about finished. The Brotherhood carpenters' strike has faded out, the structural ironworkers have agreed on terms with their employers, and it is also believed that everything is all right with the bricklayers.

These are the principal things that the building trades are concerned about, though various minor matters await determination. The building material handlers, sometimes called hod carriers, will force a claim for two and a half cents more an hour if they can; the granite workers are expected to go out; the metal polishers, brassworkers and patternmakers have made a demand for a 54-hour working week that has not been accorded, and Brooklyn and Newark plasterers, masons and helpers are moving for better terms. The action in Manhattan, as regards the mason trades, will most likely control the motions of the branch unions. Other dissatisfied workmen are the building material drivers, excavators and second-hand material men. Not all the demands are considered seriously. This being the time of year when it is customary to make annual agreements, some are taken as merely diplomatic moves to head off reductions.

The housesmiths' and bridgemen's attack on the American Bridge Company was declared off here yesterday (Friday) morning, and the working forces are now being reorganized. It is well understood that the relations between the national and local leaders are strained; the ironmasters on their part insist on dealing with the local unions only. Amicable adjustment awaits the annual matter affecting other structural workers of New York, and a meeting at which it was thought this result would be proclaimed was in session last night.

The negotiations between the masons and their employers are creditably dignified; the joint committee hold regular meetings at the Building Trades Club, and mutual respect prevails. The masons are strong, but conservative, and as they understand that the representatives of the bosses have been instructed to consider no higher scale, they will be content with concessions in other directions.

As for the carpenters, the Brotherhood made an utter failure of their strike against the Amalgamated. In a very few days it became apparent that business could proceed without them, and the executive council has ordered all contentions to cease. On the first Monday of May committees will meet and endeavor to find a basis of fellowship, but the Amalgamated will control the situation so far as this city is concerned; they now fill nearly all the foremanships and have greatly increased in number. This week's public demonstration by the Brotherhood, while a pleasant and creditable spectacle, was a mock affair in reality, as only a portion of the paraders were strikers.

## Material Market.

GENERAL CONDITIONS.

One effect of the decline of confidence in Labor is observable in the slower movement of most kinds of materials. Builders who are able to close out contracts before the month's end, and many of them had planned to do this, are waiting before assuming new obligations until the May crisis has passed, like a bad dream. Only a dream it may prove to be, but consumers have been noticeably affected by it, and have tried to safeguard themselves, so much that the condition of the building material market can only be described by the word Dull.

Said a large dealer on Thursday: "The season began very well, but there has since been a general slackening up. I was talking with a man from one of our large cement companies this week and he said that things were simply dull, without anything to account for it."

"Unquestionably a large amount of work is being held up," said a man who stands in an official relation to structural contractors. "I feel assured, however, that the negotiations now in hand will terminate so as to prevent what the public has so long feared—a general tie-up."

When once these labor matters have been settled, there will be no excuse for all the work that may be lying back in New York from coming forward and showing itself. No excuse except the high costs. But cost is only relative, and is mostly a matter between a man and his tenants. The Tenement House law will hardly serve longer as a cause for inactivity; and with the present renting season disclosing a deficit in apartments, there ought to be soon a going forth of contracts to beat the record.

These general remarks will indicate what is doing in brick, lumber, lime, cement, stone and also in iron, so far as pertains to the immediate market. Cement having a large patronage from without feels less the modifying influences of the local field than some other lines. Dealers would be greatly disappointed if the requirement should not equal the immensely increased mill capacity of the year; but the indications are that the buyer will have a more favored position in a little while, and that those brands which have become most familiar to architects, builders and owners in the columns of the journals of the building trade will reap their just reward. The number of new cement companies is legion; the figures representing their capital stock are like the stars in a winter sky, and if enough business is found for all it will be strange.

Rosendale cement has gradually strengthened since the buds opened, and a higher figure must now be quoted.

The following bids were recently received by Major W. L. Marshall, Corps Engineer, U. S. A., at the Army Building, N. Y. City, for furnishing 5,000 barrels of Portland at Ft. Wadsworth; bidders all of N. Y. City—a, price bid in bbls, per bbl; b, price bid in sacks, per bbl, 4 sacks to bbl:

| | a | b |
|---|---|---|
| Hiram Snyder & Co. | $2.24 | $2.39 |
| John P. Kane Co. | 2.15 | 2.29 |
| Fredenburg & Lounsbury | 2.30 | 2.40 |
| Vulcanite Portland Cement Co. | 2.30 | 2.40 |
| Atlas Portland Cement Co. | 2.16 | 2.27 |

The following bids were offered at the same time and place for furnishing 9,000 bbls of cement at Ft. Hamilton, N. Y.; bidders all of N. Y. City—a, price bid in bbls, per bbl; b, price bid in sacks, per bbl, 4 sacks to bbl:

| | a | b |
|---|---|---|
| John P. Kane Co. | 2.15 | $2.29 |
| Hiram Snyder & Co. | 2.12 | 2.25 |
| Vulcanite Portland Cement Co. | 2.30 | 2.40 |
| Atlas Portland Cement Co. | 2.16 | 2.27 |

With fair weather this has been a happier week for brick of all sorts; the carpenters' strike has made but little impression on the output, the troubles of the ironworkers are fading away, and on the whole a great lot of burnt clay has been laid up in walls. But still manufacturers and dealers feel that the business has not returned to its normal and rightful basis.

The recent extension of the business of a Brooklyn house to Manhattan has attracted attention in the brick trade, and it has also been observed that a prominent Manhattan company has planted a branch in Brooklyn. Does it mean that our big dealers on both sides of the stream are going in for all the business they can get, no matter where it is?

## Building Operations.

### Tiffany & Company's New Store.

5TH AV.—McKim, Mead and White, 160 5th av, are the architects for the new 6-sty building which Tiffany & Co., of Union Square, will erect on the southeast corner of 5th av and 37th st, on a plot 160x150. It will be recalled that the same firm of architects have in preparation plans for an 8 or 10-sty building for Gorham & Co., to be built on the southwest corner of 5th av and 36th st, a plot 67.5x150, and are now erecting the new Knickerbocker Trust Co. building on the northwest corner of 5th av and 34th st. It is expected that work on the Gorham building will begin May 1st and on the new Tiffany building immediately upon the expiration of the leases of the present buildings, which will be in the near future.

### Unique Jewelry Store.

6TH AV.—The Knickerbocker Jewelry Company (a stock company capitalized at $200,000) will occupy a unique store to be erected on a plot 30x65 on the northeast corner of 6th av and 16th st, which they have leased for a term of 15 years from Gustavus Morgenthau. The plans are being prepared by Architect Eisenradt of Chicago, Pittsburg and New York. They call for a 4-sty building to be entirely occupied by the company; the first story to be 21 ft high, with a gallery all around inside. The company handles jewelry, optical goods and glassware. The upper floors will be occupied by offices and salesrooms also, and the fittings throughout will be handsome.

### Apartment Hotels for Stuyvesant Park.

Treacy, whose connection with this concern dates almost from its inception. There will be a competent staff of estimators and draftsmen attached to this department. The general offices will be situated at the works at College Point, L. I. The extraordinary development of this concern, testifies in a splendid manner to the high character of their work. Mr. Rapp's new factory at College Point covers two entire city blocks, and its facilities for turning out work are unrivalled.

That modern builders and owners are sparing no expense to make their tenants comfortable is shown by the applying of solid metal weather strips to windows, thereby cutting off all draughts and dust from the rooms and also saving coal. The Paragon Metal Weather Strip Co., of 110 West 42d st, has contracts to equip the following buildings: New Amsterdam Theatre, Hall of Records and the Johnston Building, corner of Broadway and 28th st. These are the first large structures in the city to be equipped throughout with this character of weather strip. Many private houses are also being supplied with the Paragon metal strips. Their merits are such that no modern building or residence ought to be without them. A few of the many country residences now being equipped by the company include those of Mr. Anson Phelps Stokes at Darlen, Conn.; H. F. Halsey, Tuxedo, and W. L. Stone, Westbury, L. I.

## Endurance of a Steel Structure.

While the Pabst Building in 42d st was being taken down engineers from the Department of Buildings closely scrutinized the steel parts to note how they had endured, and numerous photographs were taken of such as could tell a story. It was in the winter of 1898-9 that the frame was erected, and the specifications required floor arches after the Roebling system, interior partitions of expanded metal, exterior walls furred on the inside with hollow brick and interior columns encased with hollow terra cotta blocks.

The report that has been submitted to Superintendent Stewart was written by Mr. James P. Whiskeman, C. E., and states that the expanded metal and channels in the partitions were found in a badly rusted condition throughout the building. The boiler stack, of 5-16 and ¼-inch sheet steel covered with asbestos, held by galvanized wire mesh imbedded in it, was completely covered with rust. It was probably painted with a mineral paint, which the heat had reduced to dust.

The interior beams, girders and columns above the first floor were, as a rule, free from corrosion, although little patches of rust could be found, more especially along the outer edges of the flanges of the beams, which were probably not properly painted, or here and there along the webs of the beams where the paint was probably scraped off in ramming the concrete, and where rusting set in during the drying out of the concrete.

"But," adds Mr. Whiskeman, "this slight rusting was certainly a negligible quantity. At some points, where beams were connected to columns or girders, the outline of the connecting angle could be seen in rust. Practically the only point where corrosion was developed in any appreciable quantity was on the inner side of the webs of the channels forming the elevator framing, where they were unprotected by concrete."

The wall girders and columns were most affected, especially those in the north wall of the fourth, fifth and sixth stories, possibly due to less care in painting. Corrosion had set in along the outside edges of the flanges of the north wall girders of the fourth floor, which were encased in brickwork, with the edges of the flanges within two or three inches of the outside of the wall. The bent girders around the corners were all more or less slightly corroded, which can be attributed to the scratching of the paint by the excessive amount of ramming required for the corners. The wall columns showed more corrosion than the wall girders. One from the second story had about four inches of brickwork beyond its extreme outer edge and was protected by four inches of hollow brick on the inside. The photograph of it shows alternate layers of rust and clean steel. Where the cement came in contact with the steel it was clean, but the brick did not prevent corrosion. Behind the connections of wall girders to columns or beams to wall girders there was always more or less corrosion; also on the girder seats, illustrating an almost general fact that rust developed where two steel surfaces came in contact.

But practically the only place where corrosion developed in

measurable quantity was behind the splice plates of the column connections in the fifth story, due, no doubt, to some local cause, as insufficient painting, or scraping the paint off in bringing the two columns together. The heads of field rivets usually showed rust. The cast-iron columns were in an excellent state of preservation.

Builders will find among the results of the investigation a reassurance as to the virtue of contemporaneous practise in fireproofing, a vindication of the skeleton form of construction and also a stern warning against the consequences of careless workmanship. The habit of iron is to rust, and unless it be most thoroughly shielded from atmospheric attack the safety of any building of which it forms the supporting framework will in time be threatened.

## The Legislature.

The Legislature that has just passed was an example of the efficacy of a real hard and fearless kick. But for the stern resistance of the people of New York City there would be no measuring the load fastened on the city. The mortgage tax, stamp tax, conveyance tax, and the trolley railroad grab were a few of the keepsakes we might have had, but the Stevens inheritance tax, which will be found a bigger money maker for the State than it looks, was the only tax that slipped through, if we forget the Liquor Tax law which Governor Odell hopes will be a vote winner for him up the State. The Governor defaulted in a large part of his programme, but New York City got nearly everything the Mayor and Comptroller desired. The reform in the Sinking Fund which Mr. Grout secured will save large sums to the city, while the act encouraging the advance payment of taxes, the legislation for docks, ferries and railroad terminals and, finally, the amendment to the Tenement House law are all important and valuable. In a word, the City of New York can regard the session with satisfaction for what she got and can chuckle over what she escaped. With so many things done to aid building here the year ought to be a busy one.

In the last spasms of the legislative body, Assemblyman Rogers' bill authorizing the improvement of the Quarantine Station building at Hoffman Island was passed by the Senate. Also the Dowling resolution proposing an amendment to the constitution giving the Legislature power to fix the hours of labor and the prevailing rate of wages on public works. The question will be submitted to the people at the fall election in 1905. Assemblyman Agnew's bill transferring from the Park Commissioners of New York to the Rapid Transit Commissioners of New York control of Battery Park, with reference to the conferring of rights and privileges to railroad companies, was killed.

## Questions and Answers.

### INVESTMENT OF TRUST FUNDS.

*To the Editor of* THE RECORD AND GUIDE:

Please answer the following question: As trustee having the trust funds in savings banks, does the law require said funds to be invested in bonds and mortgages?

Answer.—No. The only statute of this State, with regard to investment by a trustee of trust funds, is an act passed in 1889, by which it was made lawful for those holding trust funds for investment to invest the funds held by them in trust in bonds or stocks of any of the cities of this State issued pursuant to the authority of any law of this State. The rule with regard to the investment of trust funds is thus stated: "The rule is universal that the trustee in the investment of trust funds must act in good faith, use sound discretion and reasonable vigilance, and select such securities as the court will approve. He must do as a good business man would do in putting out his own money for the purpose of producing income without greatly risking its safety, yet confine himself to such investments as the law of his state and the rule of court favor." Again, it is thus stated: "The just and true rule is that the trustee is bound to employ such diligence and prudence as, in general, prudent men of discretion and intelligence employ in their like affairs."—Mills vs. Hoffman, 25 Hun 594—Law Editor.

### COMMISSION.

*To the Editor of* THE RECORD AND GUIDE:

A broker leases a piece of property for the owner, who has not taken title to it. The tenant paid the last month's rent as security, which, as directed, is placed with the owner as a deposit. The tenant does not take possession of the property and forfeits the deposit. Is the broker entitled to his commission, and when can he collect same from the owner?

Answer.—The broker is entitled to his commission, to be paid at once.

### DAMAGES TO SIDEWALK.

*To the Editor of* THE RECORD AND GUIDE:

Where a contractor damages a sidewalk, while setting new curb, and also makes the edges of the sidewalk dangerous to pedestrians, by leaving it in a rough condition on account of lowering the grade of curb, where streets in this borough are being repaved with asphalt, can the owner of property fronting said walk compel contractor to put sidewalk in as good condition as it was previous to molestation?

Answer.—No.—Law Editor.

### INJUSTICE TO BUILDER.

*To the Editor of* THE RECORD AND GUIDE:

"A" builds a house for "B." "A" erects and furnishes in said house two mantles, one wardrobe, one dish closet, one china closet (all wood), one flight of stairs to cellar, one flight of stairs from first to second floor, none of which is mentioned in agreement or contract. Is "A" justified in removing these fixtures from house when "B" refused to pay for them? B is not yet in possession of the house.

Answer.—Such articles as have not become a part of the realty may be removed; as to the others your remedy is by filing lien or bringing action.—Law Editor.

### BOND AND MORTGAGE.

*To the Editor of* THE RECORD AND GUIDE:

A and B, builders, borrow $55,000 on bond and mortgage for a specified term, say 5 years, at 5 per cent., and in a year sell the property, subject to such mortgage. After the lapse of perhaps three years from sale the new owner defaults in payment of interest and taxes, whereupon the mortgagee through the attorney forecloses and advertises the property for sale. In the interim and before the day of sale the attorney compromises with the new owner and accepts monthly payments on account of interest, insurance, taxes, &c. The original rate on mortgage was 5 per cent. At the termination of the original term the attorney charges thereafter interest at 6 per cent., ultimaely after a period of ten years the property was again put up under foreclosure proceedings, and the original bondsmen being ready and willing to protect themselves to the extent of the incumbrances prepared to go to the exchange and buy it in. On the morning of the sale they telephoned to the attorney for mortgagee, who informed them that the property had been withdrawn and upon further information being demanded from him as to whether the property had been sold, he answered he believed it had, any how he had been settled with. Now is it necessary to notify the mortgagee to foreclose the property now so that they may be released from the bond, or does his action in withdrawing same render such notice unnecessary?

Answer.—If you desire strict compliance with law demand an assignment to you of the bond and mortgage, or a release of your bond.—Law Editor.

### BOOKKEEPING.

*To the Editor of* THE RECORD AND GUIDE:

(1) A man in business keeps no regular set of books, original orders being entered in day book, thence posted to journal and ledger. These comprise all the books he keeps. In case of fire what would be his chances for collecting insurance. (2) In such an extreme what books would he be required to show by law?

Answer.—(1) He keeps all the books necessary. He need not keep his books by double entry, or do any fancy bookkeeping. (2) Book of original entry.—Law Editor.

## Important Piers Leased.

The Commissioner of Docks, with the consent of the Sinking Fund, has leased to the New York, New Haven & Hartford Railroad Company, a pier to be built at the foot of Peck Slip, East River, to be known as "Pier New 20," for a term of ten years from date of completion, with the privilege of two renewals of ten years each, the rental price to be $27,500 for the first year, and more afterwards. The pier is to be used for the landing of steamboats, carrying passengers and freight, and running between this city and New Haven, Connecticut.

Prior to the month of January of this year the New Haven Steamboat Company, a subordinate company of the New York, New Haven & Hartford Railroad Company, occupied Piers, old 25 and 26, East River, ever since the organization of the department. Piers, old 25 and 26, were removed in order to prosecute the work of improvement under the New Plan, and Pier, new 20, is leased to the company in lieu of the two piers removed. The rental paid for Pier, old 25, and 60 feet of bulkhead westerly, westerly half of Pier, old 26, and bulkhead between Piers, old 25 and 26, was $14,520 per annum. The pier under the new plan next southerly of the proposed new Pier 20, is new 16, leased to C. H. Mallory & Co., for $16,000 per annum, half pier. To the north, Pier, new 27, half pier, is leased to the Joy Line for $15,000 per annum.

A lease has also just been made to the Ocean Steamship Company for Pier, new 35, N. R., as extended to the pierhead line, together with bulkhead extending from a point about 81 ft. north of the northerly side of the pier to about 72 ft. south of the southerly side, for a term of ten years from May 1, 1903, with the privilege of renewal for a further term of ten years, at a rental of $52,205.04 for the first term.

## CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handd into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

April 17, 18, 20, 21, 22 and 23.

## JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoued. (†) signifies that the first name is fictitious, real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

**The Private Branch Exchange System** of supplying **TELEPHONE SERVICE** is particularly adapted to the requirements of **LARGE HOTELS** and **APARTMENT HOUSES**

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a

## Liability for Damages from Raising the Park Ave. Railway Tracks.

On Thursday the Court of Claims issued a divided opinion declaring the State liable for several hundred thousand dollars for damages to property on Park av, New York City, resulting from the raising of the tracks of the New York Central & Hudson River Railroad. The Park av cases are test actions brought by a property owner named Danders, to whom an award of $5,080 is made. Judges Saxton and Hasbrouck concur in the award, and Judge Swift dissents. Other claims aggregating $800,000 have been filed.

The construction of the viaduct causing the damage was ordered in a law enacted several years ago by the State Legislature, and after the erection of the structure an action was commenced by a property owner against the railroad. This case resulted in a decision by the Court of Appeals to the effect pursuant to which the viaduct was constructed was mandatory in its provisions. A law was passed by the Legislature this year authorizing the Court of Claims to determine the liability of the State. Attorney General Cunneen will carry the matter to the Court of Appeals.

## Artificial Marble in Denmark.

The United States Consul at Copenhagen states that the lack of marble in Denmark has led to many attempts to produce a substitute which would equal in decorative effects the natural product and would not exceed it in cost. Some success has been achieved in the manufacture of this article in Sweden, but the thin slabs would not keep their shape, inclining to bend and warp. The veins were stiff and angular, and the soft transitions of color which make variegated marble a thing of beauty were wanting. A significant advance has been made in this industry in Denmark by a master-builder of Copenhagen named Sven Schongaard, who is producing a stone of such delicate transition of tints and play of color that it is difficult to distinguish it from the natural product, while as to cost of manufacture it can compete with all other artificial marbles.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handd into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgage, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

## JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

NOTE.—The first name, alphabetically arranged, is that of the Mortgagor, or party who gives the Mortgage. "R" means Renewal Mortgage.

Vol. LXXI. MAY 2, 1903. No. 1833.

IN the long run the Stock Market moves in sympathy with the general business of the country. As long as business is prosperous, it is to be presumed that the securities representing the country's industries become more valuable, whereas when business is bad it is to be presumed that these same securities will be very much less valuable. But during periods both of bad and good times the local conditions of Stock Market speculation often get out of touch with the general business situation. The security market like the market for wheat or cotton goods is to a certain extent governed by special conditions. Capitalists may not have the power to buy securities even when they are becoming more valuable, or the market may be swamped by more securities than it can easily handle at any one time. So it is at the present moment. Local and special, instead of general conditions, govern the Stock Market and the speculators who do business from the Wall Street offices are timid and pay exclusive attention to these merely trade considerations. They do not feel any considerable movement either of selling or buying behind them, and consequently they are afraid to go in for any long pulls or big operations. They are ready to take small profits when small profits are to be had, and they are easily scared by small losses. This describes the market during the past week. A good day is succeeded by profit-taking until all the gains are wiped out. Speculators are really waiting for some outside impulse to take hold of them and direct their operations, and in the meantime they buy and sell because it is their business to do so. It is a very much more profitable occupation just at present to watch trade reports than it is to watch Stock Market quotations. A man who has the money to buy and the money to carry securities need not in general be much afraid of the result, but it is a bad time to hang over the ticker. The temper of the market is extremely nervous, and is easily influenced either one way or the other, but never for long in any one direction.

THE Board of Aldermen has no excuse for delaying to appropriate the $10,000 which is needed for the expenses of a commission to revise the street plan of New York. At the hearing during the past week no one opposed the appropriation, which, as we have already pointed out, commits the city to nothing, and simply throws the responsibility of laying out an acceptable plan upon the municipal art reformers. But at the same time it is extremely desirable that the small expenses of the commission should be paid by the city, and that the plan should have a certain official stamp upon it. There can be no doubt that this problem, which the city is called upon to consider, is the great problem of the city's future, and is intimately connected with the increase in the means of rapid transit. Every subway and bridge which is constructed brings with it certain necessary changes in the street system. The present subway could not have been constructed unless Elm Street had been widened. The Williamsburgh Bridge will necessitate the widening of Delancey and several other streets. The Blackwells Island Bridge makes the necessity of widening 59th Street still more critical. The laying out of a subway extension on the lower West Side would be very much simplified in case the new tunnel could be built under a broad southerly continuation of 6th or 7th Avenues. The Pennsylvania terminus at 33d Street and 7th Avenue will undoubtedly force some alteration of the street lines in the vicinity of Greeley Square; while the Manhattan Bridge promises to cause even more disturbance among the streets on the lower East Side than has the Williamsburgh Bridge. These illustrations give some idea of the changes in the street system which will be brought about by the transit improvements—to say nothing of the equal necessity of dealing with the congestion on 5th avenue and on 42d street. That all these matters must be taken up, and should be taken up comprehensively will be obvious to any one who faces the facts. As the Times says and as the Record and Guide has frequently said in the past. "Injustice has been done to this project by representing it primarily as a plan for beautifying the city. It is primarily a plan for increasing the convenience of the city as a place in which to live and do business. Spaciousness is necessary to convenience, to circulation. It tends also to dignity and gives opportunity for beauty." The beauty, however, is simply a by-product. The really vital object is that of improving the circulation of the city.

IT is very much easier, however, to point out the necessity for street improvements than it is to devise a plan, that is both adequate and financially practicable. Just as soon as any particular improvement is seriously proposed and estimates completed, the cost is found to be staggering; and the more important the improvement the more staggering the cost. Consequently it should be part of the work of the commission to make suggestions as to the best way of paying for these street rearrangements. The plan, frequently mentioned in these columns, of condemning more property than is needed, and selling off the residue in largs plots for increased prices, would undoubtedly prove to be a great help, particularly because these large blocks of property are in great demand just at present; but we are informed by the Comptroller that such a method of financing large improvements would require, not merely additional legislation for its prosecution, but what is much more formidable, a constitutional amendment. As it would be hopeless under existing conditions to amend the constitution for such a purpose, this scheme of financing is unavailable. There remains only the usual method of condemning as much land as is needed, of assessing part of the cost upon neighboring property, and of leaving the owners with small mutilated pieces of property, which are useless for big buildings, unless combined with large holdings. This method is both very wasteful, and often, as in the case of Elm street, inflicts such disastrous losses on property-owners that they come to regard the street improvement plans with dread and to oppose them with pertinacity. That is one of the reasons why it is so extremely difficult to get any satisfactory street widening schemes through the local boards. Then the city's share of the cost will cause as much difficulty as the share of the property-owners. It is stated that by distributing the burden over a number of years, it need not be felt, but no one could make this assertion who was familiar with the amount of money to be spent, the conditions under which it will be spent, and the power of the city to spend it. The street widenings, both in Brooklyn and Manhattan, for instance, necessitated by the several bridges, must all be undertaken and paid for within the next five years, and even with the increased borrowing capacity obtained through full assessed valuations, there will not be enough money available for the purpose. In a quick-moving city like New York these works cannot be planned as they are in Paris, a generation ahead, and then slowly carried out; for as long as they remain in that quiescent but promising state, they are a serious menace to the private property affected and prevent it from being properly improved. The financial aspects of this whole matter deserve a much more serious consideration than they have yet received.

THE officers of the Real Estate Association of New York include the names of many of the most respected, energetic and enterprising men actively engaged in real estate operations, and should be a sufficient guarantee that the work of the association will be thoroughly representative. We hope that the executive committee will try to make the association not merely a vehicle for criticizing legislative and municipal measures, but will, whenever there is a good chance, actually take upon itself the responsibility of suggesting the kind of legislative and municipal policy which will be of most benefit to the taxpayers of the city. Its criticism will always be much more effectual, in case it is taken from the standpoint of some better alternative line of action.

SOMETHING like a month has elapsed since the Mayor first proposed his scheme for a combined municipal building and railway terminus on the triangles bounded by Park Row, Chambers and Centre streets. It cannot be said that the plan has met with very much favor. It is admitted by everybody that these triangles will have to be occupied by the surface, subsurface and elevated railroads for terminal purposes; but the notion of erecting a tall municipal office-building over the terminal does not appeal to the gradually awakening municipal pride of the city. "Sky-scrapers" are, of course, a legitimate

product of the high land values in Manhattan, but they are distinctly offensive to any well-regulated sense of architectural propriety. They are the great public illustration of the fact that in New York private interests have been allowed to deal with the streets very much as they pleased. This free hand which property-owners have had in erecting tall buildings may have been and probably was a good thing for the business interests of the city, but surely the city itself should uphold a different standard of architectural decorum. When institutions like the Stock Exchange and the Chamber of Commerce can afford to ignore business cousiderations and erect low buildings exclusively for their owu occupation, surely the city of New York can afford to follow the same example. But if it is eventually decided to abandon the Mayor's plan, and occupy the proposed Chambers streets site, there should be no illusions as to the expense, which will be thereby incurred. The Mayor's estimate of this expense was much more nearly correct than that of the Municipal Art Society. The assessed value of the land included by the Chambers street site is $4,835,000, and it would assuredly cost one or two million dollars more to take title to it. A building on the site, which was erected at the same cost per cubic foot as the new Hall of Records, would cost $9,000,000; and, as this estimate does not allow for decoration and furnishing or for the higher cost of buildlng materials and labor, it will be realized that the Mayor's figure of $20,000,000 is not far astray. This is undoubtedly a very large sum of money to spend; but every year the project is delayed the cost would be greater—at least so far as the site is concerned; so that the most economical way of arranging for the new building would be to condemn the land as soon as possible, occupy all the buildings immediately and delay the construction of the new edifice until building materials are cheaper, and the building trades less congested with work.

## Rapid Transit to Brooklyn and the Bronx.

IT is an interesting fact that Brooklyn in the distribution of political and municipal favors and improvements always seems to come out ahead of the other boroughs. Consolidation was assuredly very much more to its advantage than it was to the advantage of the county of New York, for at the time of the union Brooklyn was practically a bankrupt city, and its effect was to increase the taxes and public burdens in Manhattan and to decrease them across the river. In local political campaigns Brooklyn always fares extremely well in the distribution of nominations, because the independent vote is larger in that borough than it is in Manhattan—a fact which necessitates the paying of the utmost attention, particularly by Tammany, to attracting the Brooklyn vote. In the case of the revision of the Sinking Fund, also, it may be noted that the Brooklyn taxpayers will obtain the advantage of the saving in the Manhattan Sinking Fund payments, in spite of the fact none of the excess is contributed by the former Sinking Funds of Brooklyn.

All this, however, is a matter of history, and need at the present time excite any all-feeling. What is more important, is the enormously better provision which is being made for Brooklyn as compared with Manhattan and the Bronx in laying out new rapid transit routes. That this is not an exaggerated statement of the case is proved by some figures collected by Mr. W. W. Wheatly, and published in the "World's Work." According to this estimate, the average travel leaving the business district both by the elevated and surface lines between 5 and 6 o'clock P. M. is about 142,000 passengers, whereas during the same interval the ferries and the bridge take only about 60,000 people to Brooklyn. In as much as the over-crowding and discomfort are about as bad in one direction as they are in the other, it might be supposed that larger provision would be made for the north and southbound traffic than for that to Brooklyn; but such is not the case. The additional bridges and tunnels, already authorized and under construction provide for thirty tracks, where there are now but four, and will have altogether a carrying capacity of 317,800 passengers per hour, although there are only some 60,000 passengers travelling during the most crowded hour at the present time. On the other hand only four tracks, with a carrying capacity of 43,000 passengers, seated and standing, have already been authorized for a longitudinal traffic which now amounts to 142,000 per hour. In other words the means of communication to Brooklyn will be increased by 400 per cent, while that to upper Manhattan and the Bronx will be increased by less than thirty per cent. Obviously the additional carrying capacity provided by the subway will be straightway absorbed, so that while it will be possible for a resident of the Bronx and Washington Heights to reach the business district in a comparatively short time, he will be just as much jammed and squeezed as he is at present. It is true that by Mr. Parsons' plan, it is proposed to add nine more tracks to the longitudinal transit system; but in the first place it is doubtful whether all these will be authorized, and in the second place, even if authorized, the carrying capacity of the Manhattan lines would only be increased by 100 per cent instead of 400 per cent in the case of Long Island. It is no wonder Mr. Wheatly says that "the relative proportions of these provisions appear almost ridiculous," and that he predicts an enormously quicker growth for Brooklyn and Queens than he does for the Bronx.

Of course we do not mean to imply that in making these provisions, there has been any intention on the part of the various responsible officials to favor Brooklyn at the expense of Manhattau and the Bronx. Brooklyn has under construction a much more adequate system of transit communications than has the county of New York, because it is easier and apparently cheaper to build bridges and tunnels across a narrow strip of water than up and down a long narrow congested island. We say apparently cheaper, because while the bridges themselves do not figure up an excessive expense, it looks as if the opening of new streets and the widening of old ones in connection with their termini will in the end double the expense of these structures to the city. Whatever the comparative cost, however, it is manifestly a much simpler matter to lay out tunnels and bridges to Brooklyn than it is to find available routes for new tunnels to the Bronx. All this may be admitted, and yet it should at the same time be insisted that the situation prophesied by the figures given is one that demands careful consideration and immediate action by the Rapid Transit Commission. In view of the figures, for instance, it would be utterly unwise to adopt Mr. Parsons' route for a lower West Side extension, with its necessary limitation to two tracks, when another route can be pieced out, which will permit the construction of four tracks. Furthermore it is also worth while considering whether the city should not begin to plan for a third longitudinal subway. The present plan consists only of two parallel tunnels, one on the East and one on the West Side, together with a couple of feeders in the Bronx. But surely in view of the fact that two tunnels will do no more than barely accommodate the ordinary increase of traffic for the next half a dozen years, the commission should consider a third tunnel also. Mr. Parsons' proposed West Street elevated road does not fill the bill in a sufficiently convenient manner. Finally inasmuch as Subway No. 1 will do no more than take care of the already existing overflow, no time should be lost in coming to an agreement with the Interborough Company for the purpose of adding to the trackage on the Manhattan Elevated structures. Property-owners in Manhattan and the Bronx certainly will not relish the idea of seeing a practical discrimination against their interests instituted, because the city has given to Long Island much better rapid transit connections than it has to the Bronx.

THE summary removal of Building Commissioner Stewart is a serious matter. The public can hardly be expected to remain satisfied with the situation as it is at present. The plain man is forced to view the affair somewhat in this light—Mr. Stewart either was or was not an honest and efficient official. If he was corrupt or incompetent, why does not Mr. Cantor say so and thus satisfy the public mind? Or, on the other hand, if Mr. Stewart's administration of the Building Department has been satisfactory, what are the real reasons for his removal? It is absolutely necessary that Mr. Cantor should address himself to either one or the other of these points. Mr. Cantor should be under no delusion. So summary an act as the one he has performed may be attended by many unfortunate suspicions. As it is the Buildiug Trades particularly feel much uneasiness. They have been under the impression that Mr. Stewart has been an honest and generally efficient building commissioner. Have they been mistaken, or has Mr. Cantor given public notice that henceforth these qualifications are undesirable in the Building Department? Or, are there influences at work political or financial, which desire to obtain control of the Building Department and influence its functions for their own benefit? In short, what are the facts that have been kept from the public? What is there "in the dark?" In a matter of this kind one can never say that the "personal" issue can be overlooked, nevertheless it is of small account compared with the principle involved. The Building Department is one of immense importance to this city. Indeed, its importance has never been fully recognized. It occupies a more or less subsidiary place in public estimation, whereas really it is of vital moment. It offers immense opportunities for favoritism, corruption and oppression. Indeed, in this respect, it is barely second to the Police Department. The present is a very good opportunity to reach some more definite

conclusion that has hitherto existed as to the spirit and principles that should rule the department.

WE print in another column the important parts of the text of the Appellate Division's decision in respect to the distinction to be observed between apartment houses and tenements, and it is worth while to read it carefully, because there seems to be some misapprehension as to its scope. All that the decision means is that a restriction against tenements, when the word tenement obviously designates an objectionable kind of building, does not hold against high-class apartment houses. As we have already pointed out, it has no bearing at all upon the definition of tenement houses contained in the various tenement house laws, for that definition was framed simply for administrative purposes, and, of course, is effective as ever for those purposes.

## Real Estate Situation.

The building operations of the United States Realty Company during the coming year make a formidable list. They include a twenty-story "sky-scraper" on the site of the Trinity Building, a twelve-story apartment house at the southeast corner of 69th street and Broadway, an apartment hotel at Broadway and 57th street, an eleven-story loft building on the southwest corner of 4th avenue and 23d street, and a modern hotel on the site of the Sturtevant House. Each one of these announcements has separately an interest of its own as indicating the kinds of improvement, which in the opinion of the experts at the head of the company, are best adapted to these particular sites. In the case of the Trinity Building, of course, the only possible new building which could be placed on the site was a "sky-scraper," but the proposed operation offers some other elements of interest. In the first place it turns out that the Trinity Building has been made over to the Equitable Life, in spite of the denials which greeted the announcement when it first appeared. In the second place the statement that several months will elapse before the new building to be erected on the site will be commenced, obviously has more behind it than appears on the surface. A delay of several months will make it impossible to complete the building by May, 1904, and since the leases on the present building have expired, it would appear that the Equitable Life has some very strong reason for delay. What this reason is can only be surmised until the plans of the Assurance Society are fully divulged; but when they are divulged it will be discovered that these plans are very far-reaching and spectacular.

**Buildings of the U. S. Realty Co.**

Counting the Trinity Building as an office-building, the United States Realty Co. proposes to go in for a very nicely arranged variety of construction. Their plans include a big apartment house, an apartment hotel, a hotel for transients, and a store and loft building. The apartment house is to be erected on the southeast corner of Broadway and 69th street. The site is equally well adapted to a family hotel; and the fact that housekeeping apartments have been preferred is another indication that apartment houses are regaining something of their former popularity among builders. This new building, together with the Astor apartment house ten blocks above, will tend more than ever to make the vicinity of 72d street and Broadway—the location of the express underground station—perhaps the most important centre in the city for this class of living accommodation. The 57th street corner, on the other hand, it is proposed to use for a family hotel, but since the details of this operation have not yet been given out, comment may be deferred until the precise nature of the improvement has become a matter of definite decision.

The site of the old Sturtevant House might have been improved either with a hotel or a store and loft building. The fact that a hotel has been selected justifies the question whether the business of building hotels for transients is not being overdone. Just at present there is not room enough for transients in New York during the period of such functions as the horse-show; but the new construction now under way or promised will increase the accommodation enormously. Next fall the Hotel St. Regis on 5th avenue and the Hotel Astor on Long Acre Square will open; in the spring of 1904 the extension to the Hotel Imperial will be ready, in the fall of 1904 the Hotels Knickerbocker and Belmont, both on 42d street and both twenty stories high, will doubtless open up, while some time in the following year the new Hotel Brunswick and the new Sturtevant House will begin competing for business. It is possible that by the end of 1905 there will be enough transients in New York to keep all these new hotels and the best of the old ones fairly profitable, but it is certain that many of the older places will be forced to shut down. It is interesting to note that four of these new hotels will be erected on Broadway, two on 5th avenue and one on 4th avenue. Broadway consequently continues to hold its own as the proper location for hotels. The neighborhood of the old Sturtevant House has, however, of recent years, become more in demand for business than for any other purpose. Two office buildings have recently been erected in that part of the thoroughfare; and the side streets are becoming favorite places on which to put up loft buildings. It should be added, however, that many apartment hotels are also being erected on the side streets between Broadway and 5th avenue, and that hereafter wholesale business and the peculiar life and pleasures associated with big hotels will be much nearer neighbors on middle Broadway than has been usually the case in New York.

Finally the corner of 23d street and 4th avenue is used for a store and loft building. This site was, of course, sure to be devoted to business purposes, and had been talked about both for a department store and an office building. It would surely have made an admirable site for a big retail store; but a retail store needs a retail storekeeper, who may not have been forthcoming. That a loft building should have been preferred to an office building leads one to infer that the wholesale trade may be expected to spread along the line of 4th avenue, as well as along the line of Broadway. Fourth avenue is certainly too broad and useful a thoroughfare to be given, however, to small old furniture and "curiosity" shops. Furthermore it will be advantageous to the whole trade to take in as many side streets as possible in its northward march. The more it spreads to the east and west the less likely it is to be forced to pay high prices. If it could extend from 4th avenue on the east to 8th on the west, it would have an area to occupy south of 34th street, which would delay the necessity of going north of that street for many years to come.

During the past week there have been a larger number of sales reported than has been usual of late; and the buying has been of an excellent quality. Fifth avenue property is still very much in evidence and is bringing constantly increasing prices. A large number of sites are being purchased for business buildings on the side streets between 23d and 34th streets. Indeed that will be one of the noisiest parts of the city during the coming summer and winter. There is no flagging in the demand for new business accommodations, while the announcements of new apartment houses and tenements continue to be very large indeed. The filings at both the Register's office and the Building Department are very heavy even for this time of the year, and, so far as projected buildings are concerned, are beginning to justify the prediction, that we have frequently made, that the buildings projected during 1903 would exceed the large totals of 1902. As is natural at this season, a good many West Side dwellings appear in our "Gossip," but this is more because there are so many dwellings in that section for sale than because the demand for them shows any particular vitality. The fact that two builders of West Side residences bave recently had their houses sold under foreclosure does not encourage operations of the same kind. On the other hand while there is not so much speculation on the East Side as there was during the corresponding period last year, it is none the less true that from the fifties up to the eighties values are stiffening rather than receding—so much so that speculators do not like to pay the prices that are being asked. Altogether the situation is distinctly more favorable than it has been recently. Property-owners in Manhattan and the Bronx, however, would do well to ponder the facts presented in another column about the advantage which Brooklyn is destined to have over the Bronx in the amount and comfort of its prospective means of communication, for it is undoubtedly that these facts contain a distinct menace to the value of cheaper residence property on this side of the river.

**The Week's News.**

—A decision by the Court of Appeals this week, relating to a section of the Penal Code, which says if a man shall employ workmen for a period longer than eight hours he shall be guilty of a misdemeanor, declares that the section is unconstitutional. This, however, does not interfere with the State providing for an eight-hour day for State work only. The natural effect of the decision is to enable the contractors at work on public undertakings to push their men as many hours as they please and at such rates as they can agree on with their employees. But the fact is that the agreements in force between organized labor and its employers will prevent more than eight hours' work so far as most union men are concerned.

## Restoration of the City Hall.

After overcoming difficulties with which a work of such character should not be hampered, the repairs to this historic building have arrived at the finishing stage, except for some painting to be left until the summer vacation. Since the city charter requires that contracts must be made with the lowest bidder, the privilege of selecting the best workmen was not considered in this instance, and the consequence soon became apparent. In work for the national government architects may have their designs executed with skill and fidelity, as the law under which contracts are awarded permits of a discretionary choice from among the bidders. At the City Hall it was necessary after a time to cancel the contract with the man who bid the lowest and to call upon his sureties to complete the work according to specifications.

The idea of the consulting architect, Mr. William M. Aiken, was to carry out the changes which were necessitated by the ever increasing growth of city business in the spirit of the original design, as the first architect himself would have done were he alive, for this building is rightly considered to be not only one of the best specimens of old Colonial work in the City of New York, but it ranks with the Capitol and the White House among the best of the public buildings anywhere in the United States. A hundred years have flown since its erection was begun; it has been put to varied uses; courts in times past met there and it has passed through many alterations and modifications, but still remains a structure of graceful parts, an interior not without pretensions to elegance and certainly dignified and wholesome.

In altering and renovating the basement, Mr. Aiken has made available additional space for the City Marshal, the City Clerk, the "City Record" and the City Engineer, besides constructing from storage vaults a new Marriage Room, a G. A. R. Room, a toilet room for women and another for men, and paving the corridor with white vitrified tile.

On the first floor, however, is to be found the most serious work. When looking from the rotunda down the west corridor, the new lobby of the Mayor's offices, with gleaming white columns at the portal, flanked by wreathed fasces and supporting the seal of the city, modeled in the round is like a picture in the distance. In refitting the capitol of the second city of the world, Mr. Aiken felt, as did Mr. McKim, when restoring the President's mansion at Washington, that it was not a work of innovation but of development. Fidelity, with the genius to conceive what Fidelity here demands, rather than any new inspiration however beautiful, was the duty laid upon him. With modern means, with richer pigments, with better tools, he has perhaps bestowed upon the interior a handsomer appearance than it ever before possessed, but still has been true to the spirit of McComb (or shall we say Mangin?) and has plainly sought, even when readjusting divisional lines, to interpret what would be the wish of the original designer were he still directing.

The White House is a residence primarily, the New York City Hall is a legislative and business building solely, and necessarily without the warmth and delicacy of a home. It must have a more rugged construction, a harder and colder tone indeed, and even its most elegant corner must show a reason compatible with the stern business of government. It will be said in honor of Mr. Aiken that he has not sought to put his own mark on the structure, only to reconcile the claims of history and architecture with the practical purposes of the present time, and that he has had the genius to do this handsomely with an inadequate appropriation and mediocre mechanical assistance.

The rooms refitted on the first story were the private office of the Mayor, the office of the Mayor's secretary, the room of the assistant secretary, the private office of the Counsel, the business office of the City Clerk, and the room of the Mayor's clerks. The Mayor's private office has been changed to the northwest corner of the building, but the reception room is the apartment having the most elaborate furnishings. White and yellow are of course the Colonial colors prescribed by architectural code, but the white of Mr. Aiken is an ivory white, paler or warmer according to surroundings; his yellow is almost a salmon in the corridors and a warm gray in the reception room. Imbedded in the walls of the reception room are plaster copies of seals that have taken much study and research. While merely evolutions of just three seals (the City's, the State's and that of the United States), they possess a peculiar historical value, inasmuch as they have been carefully culled from the archives of the New York Historical Society, from Monticello, the home of Jefferson, which Mr. Aiken has visited, from Albany, and also from Washington, where he was a supervising architect for the Government. The eastern wall bears the seals of the Dutch Colony of the New Netherlands, and of the Dutch city of New Amsterdam, and next on the north are the first seal of the British colony and the present seal of the State of New York, on the south wall are the first British seal of the City of New York and the City's present seal. On the wall to the west are replicas of the reverse and obverse of the United States seal. The border to the centerpiece on the celling is that of the first seal of the United States Government, with shields bearing in relief the initials of the thirteen original colonies.

The Mayor's rooms have been furnished in a dignified and simple manner, what is there is the best made. The furniture is of Chippendale design. The upholstery of the private office is in sage green, while in the reception room deep red velvet gives the color and tone. The window hangings, the andirons and firebacks are each harmonious in character.

In the second story has been constructed a new lobby for the offices of the President of the Borough of Manhattan, together with a rearrangement of the business room and new private office. A marble floor has appeared in the west corridor, new marble treads to the main staircase, and the great rotunda has been newly decorated in white and gold, and illuminated by electricity.

The ceiling in the Aldermanic chamber and the walls and ceilings of the Council Chamber will not be done till mid-summer. Thus far the sum of about fifty thousand dollars has been spent, no small part of which has been taken for the heating, ventilating, plumbing and electric work. Plumbing was nowhere in use to any great degree when the building was designed, but during the past fifty years has been inserted here from time to time, and was in many instances hidden in closets or otherwise summarily disposed of near the middle of the building.

## Apartment Houses and Tenements.

The following is a large part of the text of the decision, on which the Record and Guide commented recently, handed down by the Appellate Division of the Supreme Court in the case of Frederick W. White and another against the Collins Building and Construction Co., which turned upon the definition which should be given to the word "tenement" in restrictive covenants relating to land on the West Side:

"The plaintiffs entered into a contract with the defendant whereby the plaintiffs, in consideration of $87,500, purchased from the defendant certain property in New York. The objection to the title is based upon a covenant in a deed by which the premises in question were conveyed to the plaintiff's predecessor in title by the executors of Jacob Harsen in the year 1873. That covenant is as follows: That the said party of the second part, for himself, his heirs and assigns, doth hereby covenant to and with the said parties of the first part, their successors and assigns, and with the owners for the time being of the adjacent lots, jointly and severally, that neither the said party of the second part, nor his heirs or assigns, shall or will at any time hereafter erect any buildings within forty feet of the front of said premises, except of brick or stone, with roofs of slate or metal, and will not erect or permit upon any part of said premises any stable of any kind, * * * * railroad depot, railroad stable, car, engine or tenement house or any other trade, manufactory, business or calling which may be in any way dangerous, noxious or offensive to the neighboring inhabitants, and that no buildings shall be erected upon said lands, or any of them, which shall contain any alley or entrance running through them for ingress or egress to rear buildings, and it is declared that this covenant is a lien and runs with said lands, and binds the persons seized thereof for the time being.'"

In considering this covenant we are to ascertain the intention of the parties to the conveyances of which the covenant is a part and give it due effect. Particular words in such a covenant are to be given the meaning that was commonly given to them at the time the instrument containing the covenant was executed. In ascertaining the intention of the parties the whole instrument must be considered; and when the various uses of the property which were prohibited are considered it becomes apparent that what was intended was to prevent the use of the premises in any way that would be a nuisance to the adjoining property. A great number of uses are prohibited, all of them of a kind that produce disagreeable odors or noises or attract to the neighborhood large crowds of undesirable persons. "Tenement house" is bracketed with, a railroad depot, railroad stable, or car house; and, it would seem that the intention was to prohibit those uses which would tend to injure the general character of the neighborhood and make it inappropriate for the residence of refined and prosperous people. It is common knowledge that in the year 1873 and prior to that time modern apartment houses were unknown in the City of New York, and the parties in their statement of facts stipulate that "an apartment house as such was unknown in 1873. The word apartment house only came into use about 1880;" that "an apartment house is a building used as a dwelling house for several families, each family living separate and apart from the others. That the building is commodious and is very handsome in outward and inward appearance, and fitted with every modern appliance for the comfort of tenants. That each separate family uses the main hall for an entrance to the building. Each suite of rooms is a dwelling house with a separate hall, water-closet, bath, and in itself, complete in every detail;" and that the defendant "proposes to erect and build upon the premises in question, an apartment house which shall be in all respects of the highest class." The parties have also stipulated as to what was known in the year 1873 as a tenement house, and this description is substantially different from that of an apartment house as defined. It is stipulated that suites in a tenement house rented from $6 a month to $15 a month, according to the number of rooms, and were rented by people of very limited means.

Comparing this statement of the definition of a tenement house as existing in 1873, with the definition of an apartment house when that term came into common use, and the description of the building that the defendant intends to erect; considering the object for which this covenant was intended and the nature of the various uses that were prohibited, it must be apparent that the building that the defendant proposes to erect is not a tenement house within the meaning of the covenant and was not in the contemplation of the parties when the instrument containing the covenant was executed. An apartment house, the erection of which is contemplated by the defendant, would clearly not be a use of the property which would be dangerous, noxious or offensive to the neighboring inhabitants. What was clearly contemplated was that a tenement house as then known and in use in the City of New York should not be erected upon the property. The erection of a hotel was not prohibited, nor was the use of the property restricted to dwelling houses so constructed that one dwelling should be under each roof. The restriction was confined to one particular residential use, viz., a tenement house. The fact that hotels, boarding houses, or houses of that character which were then common in New York were not prohibited would seem to show that the parties did not intend to restrict the premises to residences of a particular kind; what was contemplated was that the building of a tenement house as then understood in New York should not be allowed, but, the modern apartment house is a building entirely distinct from what was then understood as a tenement house.

It is insisted, however, that the definition of a tenement house contained in Chapter 908 of the Laws of 1867, which was in force at the time this instrument was executed, as any house which is erected, leased or hired to be kept or occupied as a home or residence for more than three families, living independent of one another and doing their cooking upon the premises, must be applied to this covenant. This definition of a tenement house, however, is expressly restricted to that particular act. Provision was there made for the regulation of tenement and lodging houses in the cities of New York and Brooklyn, and that statute was passed at a time when, according to the submission, apartment houses and houses of the character that the defendant intends to build, were unknown in New York. It regulated the construction of sleeping rooms, provided for proper ventilation, for fire-escapes, proper roofs, drainage and proper water-closets and plumbing, and contained stringent provisions for the removal of garbage and filth from the houses and yards and for proper inspection by the public authorities. The nature of the buildings to which these provisions were to apply was designated in the act as tenement houses, and a tenement house for the purposes of that act was given a general definition which would include the houses of that kind then commonly constructed. It may be that an apartment house would be required to comply with the provisions of this statute so long as it was in force, but the object of the definition was merely to indicate the nature of the building to which the statute was applicable; not to make all buildings that would come within the definition tenement houses for all purposes and for all time to come. What we have to determine here is whether an apartment house of the character designed by the defendant was a tenement house within the meaning of the parties to this instrument in 1873, and it seems to m eclearly that it was not."

This decision was written by Justice Ingraham, and concurred in by Justices Patterson, O'Brien and Hatch. Justice Van Brunt dissented.

Friday's real estate auction business was transacted at 161 Broadway, where the auctioneers have taken temporary quarters. The hope is entertained that the new Trinity Building will be so planned that they will be able to get "back at the old stand," although the question of rental is a serious one. The removal to 161 Broadway will mark the fourth change in the place legally designated for holdisg real estate auctions. Prior to 1861 sales were held in the old Merchants' Exchange in Wall st. This was bought in that year by the Government to be used for the Custom House and the salesroom was removed to the front basement of the Trinity Building. In 1885 real estate sales were transferred to the Real Estate Exchange in Liberty st, which has since been replaced by the Chamber of Commerce. In 1892, as the outcome of a disagreement among the auctioneers, the more influential faction succeeded in having the rear basement of the Trinity Building designated as the place where legal sales must be held. The auction room at 111 Broadway was always allowed to remain open until 1 p. m., but the rule at 161, it is very evident, will be 12.30, that is, if the sales are finished.

On Tuesday, May 12, James L. Wells will sell by order of the Supreme Court, at the New York Real Estate Salesroom, No. 161 Broadway, 119 desirable lots, well situated on Albany, Bailey and Heath avs, one block north of the Kingsbridge stations of the New York Central, the Putnam Division, and the Subway. Also a plot containing 2 17-100 acres with store and dwellings, about five minutes walk west of the Van Cortlandt

Station. The titles are insured free of cost by the Title Insurance Company, and 60 per cent. may remain on mortgage at 5 per cent. Maps may be seen at the auctioneer's office, No. 141 Broadway.

On Thursday, May 7, Philip A. Smyth will sell at the New York Real Estate Salesroom, No. 161 Broadway, by order of executor and absolutely without reserve, No. 434 East 89th st, a 5-sty brownstone apartment house, on lot 25x100.8. Maps may be seen at the auctioneer's office, No. 141 Broadway.

Julius Harburger, former excise commissioner, says: "As a result of higher rentals in the East Side tenement district over a thousand dispossess warrants were issued in the Fourth Municipal Court district. There have been more evictions, he says, in one judical district in this city in the past three months than in all of Ireland in the same period."

## Gossip of the Week.

### First of May.

A very large part of the real estate world dates from May 1, but in the aggregate there is much less changing around than has been observed in previous years. This is particularly true of Manhattan. A notable exception to the general rule can be found among the downtown real estate men. Naturally, the most moving is among the apartment and tenement houses, but even here circumstances this year have not encouraged the practice in the accustomed degree. In a number of buildings rented from May 1, but still incomplete, the operation of moving was extremely difficult.

James L. Libby, of 7 Pine st, said he had noted comparatively little moving in office buildings, tenants mostly staying and paying more.

At Geo. R. Read's new office in Liberty st, it was said that as regarded the same class of buildings there were fewer changes than last year, and rent rolls were in better condition. In many cases firms had taken more room in the buildings they already occupied, and office buildings were now, generally speaking, much better filled. Rent schedules had not been advanced, but owners are better able to enforce their schedules. Tenants had got the idea that there would be a raise.

In the Murray Hill section agents reported no stir at all, and among the West Side and Harlem apartments much less than customary.

The old Trinity Building, at 111 Broadway, long a headquarters for real estate interests, is being entirely vacated, preparatory to the erection of a new building. Geo. R. Read & Co. and H. S. Ely & Co. are also leaving Cedar st, and for the same reason. The following are the new addresses of firms whose offices were in the Trinity Building:

115 Broadway.—Samuel Goldsticker, D. Phoenix Ingraham & Co., F. R. Houghton, George Ranger, B. Mayhoff, Nevins & Perelman.

156 Broadway.—J. Clarence Davies & Co., W. S. Patton, G. W. Coster.

157 Broadway.—Peter S. Meyer & Co.

25 Broad St.—Frederick Southack and Alwyn Ball, Jr.

135 Broadway.—Thomas C. Smith, Elisha Sniffen, Mandelbaum & Lewine, Miles & Helfer.

92 Liberty St.—J. H. Raynor, I. Kuhn.

165 Broadway.—Moses Franklin, Adolph Kronengold & Co.

27 Pine St.—J. H. Deane.

The New York Real Estate Salesroom is now at 161 Broadway.

The Real Estate Board of Brokers have moved to 115 Broadway.

### Browning, King & Co. Leases a New Site.

Another large establishment is soon to be added to the new centre of retail trade in the neighborhood of Broadway and 34th st, in the shape of a new store building to be erected by Browning, King & Co., on the plot owned by the Webb estate, running through from Broadway to 6th av, just north of 31st st, and adjoining the Union Dime Savings Bank Building.

More exactly defined, the plot includes 1265 to 1269 Broadway and 530 to 534 6th av, and covers about 7,000 square feet, with frontages of about 65 feet on either thoroughfare. This site was leased by Browning, King & Co. from the Webb estate through the firm of L. Tanenbaum, Strauss & Co., for a period of forty-two years. The aggregate rent for the entire term is said to be about $2,000,000. Work upon the new building will be begun May 1, 1903, and it will be ready about October, 1903.

### Record Price in Lower Greenwich Street.

The sale of No. 61 Greenwich st and No. 22 Trinity place, at auction, by the firm of L. J. Phillips & Co., brought $41,500, the purchaser being Robert A. Pinkerton. This property is assessed at $29,500, and was appraised by three different appraisers for the executors of the estate of Fanny Hendricks, the appraisals ranging from $21,000 to $28,000. This is the highest price for similar property that has been sold in that section, and it was a great surprise to the executors, as well as the experts. It shows the rapid advance of realty in the lower section of the Island. The new Whitehall Realty Company was in the midst of the spirited bidding for this property, and bid within $50 of the successful figure, but as Mr. Pinkerton would have gone a great deal higher, they dropped out. This property would have brought a still higher price had it not been for the fact that it is leased to May 1, 1905, at $1,600 per annum.

### SOUTH OF 59TH STREET.

FRONT ST.—Geo. R. Read & Co. have sold for the estate of John R. Downey to William B. Dana, of the "Financial Chronicle," for about $175,000, 136 to 140 Front st, a 6-sty brick office building, occupying the westerly block front between Pine and De Peyster sts, 59x63.2x irregular, x50.10.

BROAD ST.—Grace C. Snelling has sold the lot, 22x58.2x38.6 x55.4, with old buildings thereon, at the junction of Broad, Bridge and Pearl sts, and known as 100 Broad st, 36, 38 and 40 Bridge st, and 49, 51 and 53 Pearl st.

STANTON ST.—William Rosenzweig and Bernard Klingenstein have sold to Charles Weinstein for improvement the southwest corner of Stanton and Attorney sts, old buildings, on plot 62.6 x52.3.

45TH ST.—The Buckley estate has sold 49 West 45th st, a 4-sty and basement dwelling, on lot 18.9x100.5. The buyer is said to own adjoining property.

50TH ST.—George H. Robinson has sold 71 West 50th st, a 4-sty brownstone front dwelling, on lot 17.4x100.5.

LEXINGTON AV.—Richard V. Harnett & Co. have sold for a client 585 and 587 Lexington av, two 5-sty flats with stores, on plot 50x100. The property was to have been sold at auction on Wednesday by the above firm.

5TH AV.—Tucker, Speyers & Co. have sold for Cornelia R. Nash to Jesse C. Woodhull 574 5th av, a 4-sty building, on lot 25x100, for $230,000. The buyer will make extensive alterations to the building at the expiration of the present leases.

MADISON AV.—Jacob Finkelstein has sold for Irving Judis to Samuel Jacobs the 6-sty new flat No. 195 Madison st, on plot 24x100, for $44,000.

BROADWAY.—Oppenheimer & Hamerschlag have sold the plot forming an "L" around the northwest corner of Broadway and 55th st, fronting 77.4 ft on Broadway and 25 ft on 55th st, having a northerly line of 74.10 ft and a westerly line of 100.5 ft. The sellers bought the property at the first Eno sale, February, 1899, for $94,000.

BLEECKER ST.—Levy Brothers have bought from Alfred L. White 259, 261 and 263 Bleecker st, three 3-sty buildings on plot 54x80, adjoining the northwest corner of Cornelia st. A 6-sty tenement will be erected.

## Obituary Note.

Cornelius O'Reilly, the architect, of 34 East 45th st, met death on Wednesday, by falling from a ladder at the Church of Our Lady of Lourdes, 142d st and Amsterdam av. Mr. O'Reilly was superintending the work on the church, which is being constructed from the stone of the old Academy of Design, when he followed his foreman up a ladder to the second floor. The foreman had reached the floor, and Mr. O'Reilly was almost at the top rung when the ladder slipped. The architect fell one story, striking the back of his head against an iron beam. He was carried unconscious into the rectory of the Rev. Joseph S. McMahon, adjoining the church, where he died in a short time, from a compound fracture of the skull.

Mr. O'Reilly was a widower, and leaves five sons and four daughters. He was interested in many real estate and banking companies and in the storage business, and was a director of the New York College of Dentistry and a trustee of the New York Ophthalmic Hospital. Mr. O'Reilly was sixty-eight years old, and was born in County Cavan, Ireland.

—Construction work is dull in Europe, and laborers with their families are flocking to these shores. The total immigration for the nine months ending with March, 1903, was 494,425, against 370,575 for the corresponding months of last year. Most of them are Italians, next Huns and Russians, these constituting three-fourths.

# The World of Building

## The Labor Situation.

The labor developments of the first of May were not particularly exciting outwardly, so far as real estate is interested in them. On Thursday a definite settlement was reached between the men erecting ironwork and their employers of the Iron League, and also with the American Bridge Company and the George A. Fuller Company, which set all doubts at rest in regard to that department of business. All structural ironwork in the city will now proceed, and the men are to receive $4.50 a day for full time, a weekly half-holiday all the year and double time for any holiday work, instead of time-and-a-half. But, on the other hand, concessions are made by the unions that remove certain annoyances for employers.

The United Building Material Drivers demanded the following rates: Drivers of one-horse wagons, $2.25 a day; two-horse wagons, $2.50; three-horse wagons, $2.75; four-horse wagons, $3; time-and-a-half to be paid for overtime and work done on Sundays and legal holidays. The working day for the building material drivers is ten hours. In the case of the other builders an eight-hour workday is the rule. Some employers conceded these demands, but others have not, with the result that several thousand brick men are idle for the time being. Just what the full effect of this strike is had not become apparent at this writing, but there is an impression that there are enough non-union drivers to keep things going, if they are not interfered with.

The masons and bricklayers claim as a matter of pride that they never strike. "It's against our principles to strike," exclaimed a member on Wednesday. But somehow they have a way of getting their demands honored, so far as the cash is concerned. The existing agreement has two weeks yet to run.

The marble trades have made an agreement for two years as follows: Marble cutters, increase from $4.50 to $5 a day; marble cutters' helpers, increase from $2.65 to $3; marble polishers, increase from $3.50 to $4. The granite cutters did not strike as expected.

The hodcarriers have made a demand for a raise from 35 to 37½ cents an hour, but have not struck as yet. On Sunday night they will vote whether to do so or not.

The local unions of the Brotherhood carpenters refuse to call off their strike. Officially, then, the strike is still on, and some shops and mills are closed. The strikers are most missed where cabinet and mill work is to be done.

The metal polishers and brassworkers have made demands in a number of cities for a nine-hour workday on August 1. The iron moulders have demanded a nine-hour workday, but this is to be settled by arbitration. The New York District of the International Association of Machinists has made a request for a minimum wage scale of $3 a day, to go into effect June 1, but there is to be no strike.

The strike of marine engineers does not affect the building trades particularly, as the Cornell and railroad tugs are not involved.

WAGES IN THE BUILDING TRADES.

Previous to May 1st the following were the official wage scales in New York City:

Masons and bricklayers, 65 cents; structural iron setters, $4 a day; ornamental iron setters, 56½ cents; plasterers, $5; lathers, 50 cents; hoisting engineers, 62½ cents; tilesetters, 62½ cents; plumbers, 53⅛ cents; steamfitters, 50 cents; steamfitter helpers, 28¾ cents; gasfitters, 53⅛ cents; carpenters, 56¼ cents; stonecutters, 62½ cents; marble cutters and setters, $4.50; marble cutters' helpers, $2.65; marble polishers, $3; painters, 50 cents; sheet-metal workers, 50 cents; electricians, 50 cents, masons, 35 cents; plasterers, 40⅝ cents; common laborers, 25 cents. Wages agreed upon for 1903: Iron setters, $4.50; stonecutters, $5 per day; painters, 56¼ cents; steamfitters, 56¼ cents; masons and bricklayers, 70 cents; marble cutters, $5; marble cutters' helpers, $3; marble polishers, $4.

## Building Operations.

### The New Building Commissioner.

The sudden removal this week of Commissioner Stewart from the head of the Building Department, came as a thorough surprise to the Building Trades. Few persons had any suspicion that so radical a step was contemplated. It is to be regretted deeply for the sake of the new superintendent, Mr. Henry S. Thompson, that his appointment is attended by circumstances that seem in some way extraordinary. This is not a criticism in any sense upon Mr. Thompson himself. He is well and favorably known in the community and personally he is popular and if his appointment had been made the beginning of the present administration, his dismissal under circumstances similar to those that attended the dismissal of Commissioner Stewart might well have occasioned the very comment which one hears now throughout the building trades.

### Manhattan Transit Co. on 23d St.

23D ST.—The Manhattan Transit Company, 47th st and 2d av, main office at 250 East 48th st, will erect a 3-sty brick building of steel and concrete construction, on a plot 50x95, at 250 and 252 West 23d st. The building will be a thoroughly equipped storage house for all kinds of automobiles, and will be planned to accommodate 500 vehicles. The cost is estimated at between $70,000 and $80,000. R. G. Rowland, architect for the company, has drawn the plans and Mr. Knight, the company's chief engineer, has the work in charge. The old buildings have been demolished and work upon the new will soon be started. No contracts have been let. It is the intention of the company to retain their present locaion and, besides the new establishment on 23d st, to open similar places on 66th st and also at Water and Beekman sts.

### Business Block on the Old Y. M. C. A. Site.

23D ST.—Clinton & Russell, 32 Nassau st, will draw the plans for an 11-sty store, loft and office building, to be erected on a plot, 83x175, on the southwest corner of 23d st and 4th av, the old site of the Y. NEWARK, N. J.—The Atlas Refining Company, with works on Lockwood st, will add a large extension to its plant, the plans for the improvement being made by Architect Alfred Peter. The dimensions will be 35x85 feet. The structure will be 3 stories high and of brick. The building is to be used for manufacturing and storage purposes. The estimated cost is placed at $8,000. Contracts on these three jobs will not be awarded until next month. . . . Several sets of plans for factory and flat improvements are in course of completion at the office of Architect Romolo Bottelli. D. Loprete is about to start the erection of a 4-sty brick factory on Brantford st to replace the structure destroyed by fire some weeks ago. Cost stated, $15,000. The same owner is to build an apartment dwelling on Sherman av, nearby, for the use of his employees. It will be 4 stories and of brick. The dimensions are 40x60 feet, and the estimated cost is $10,000. A feature of the dwelling will be a large meeting room on the top floor, which will be fitted up with clubhouse improvements. . . . The same architect also has plans for a 4-sty brick flat to be built at 167 Bergen st. It will have all improvements, and will accommodate eight families. The estimated cost is $13,000, and the owners will be the firm of Iarolli Brothers. Another set of specifications by Mr. Bottelli is for an eight-family 4-sty brick flat on West Kinney st for Morris Poteker. The front will be of limestone, and the cost is estimated at $15,000. . . . . Contracts are to be let next month for a 3-sty brick store and dwelling which is to be erected at Mechanic and Lawrence sts for the Hensler Realty Company. The architects are Klemm & Metzgar, Buff brick, with stone trimmings, is to be used for the front facade. The specifications call for steam heat and other improvements. The same architects also have plans for a 3-sty frame flat at 365 Elm st for Frederick Hammell. The estimated cost is $5,500. A similar flat, to also contain all modern improvements, is to be built from plans by the same architects at 360 Walnut st. The owner will be Paul Fuchs. No contracts have been let.

NEWARK, N. J.—The following permits have been issued in Newark: Four-sty brick store and warehouse, 31 Market st; owner, J. W. Brick dwellings, 136-138 South 7th st; William A. Connelly, owner; estimated cost, $12,000; Fred. P. Merkel, owner; estimated cost, $5,500.

**In Other Cities.**

TAUNTON, MASS.—The general contract for the erection of the Carnegie Library at Taunton, Mass, was awarded to Fisselle & Wagner, Newark, N. J. It will cost about $70,000, and is a 2-sty building, 85x100, limestone exterior, hardwood finish. The architects are Ackerman & Ross, 156 5th av.

BRISTOL, CONN.—The Bristol National Bank, it is stated, will erect a new building. The directors last week let a contract to New York City parties to construct for them a vault for the building which will be erected the coming season. It is necessary to have the plan of the vault first and then make the plans of the building accordingly. Now that this preliminary is out of the way a contract for the building will be in order.

AUBURN, N. Y.—It is reported that arrangements have been made with the Knickerbocker Trust Co., of New York, to finance the proposed electric railway between Ithaca and Auburn, passing through Portland, Ludlowville, Lake Ridge, King Ferry, Poplar Ridge and Auburn. Isaac P. Hazard, of Poplar Ridge, Pres.; Sherman Collins, of Ithaca, Secy.

WATERBURY, CONN.—The entire contract for the new church for St. Francis Xavier's Parish have been let to Chauncey Seeley & Co. Plans have been figured for the 3-sty building to be erected for the Martin Kalbfleisch Company. It will be of brick, 55x160 feet.

PATERSON, N. J.—The members of Trinity Methodist Episcopal Church have taken the first steps for the erection of a new and finer edifice by appointing this committee: Rev. J. A. Hensey, the pastor; James G. Patton, C. F. Vandervoort, Dr. B. F. Luckey and Dr. T. Y. Kinne. This committee was instructed to provide a building to cost from $25,000 to $30,000. The Methodist Church at Ridgewood has been inspected and may be taken as a model.

SYRACUSE, N. Y.—Within a month work will be begun on a mammoth carhouse for the Rapid Transit Railway Company, at the southwest corner of Tallman st and Cortland av. The new structure will be very much larger than either of the two now in use by the company. It will house 150 cars and will be built at an expense of at least $50,000. The vice-president and general manager is E. G. Connette.

TRENTON.—The contract to build the $100,000 theatre at 209, 211, 213 East State st, this city, has been awarded by Albert E. Westover, the architect, to Kendrick & Roberts, Inc., of Philadelphia. Ogden D. Wilkinson, the promoter, says he will conduct a first-class playhouse that will seat 2,000 persons.

WILLIMANTIC, CT.—Plans for the building of St. Mary's Church here, made by Fontaine & Kinnicut, architects, of Woonsocket, R. I., have been accepted by the Rev. Arthur De Bruycker, pastor of the church, and two trustees, H. Dion and Godfroi La Palme. The church will be a handsome edifice, with a seating capacity of 1,200. It will be of the Romanesque style of architecture as practiced in France at the present time. The superstructure will be of brick, the inside or lining brick of Connecticut red brick, the outside, or face brick, to be of a yellow brick. Dimensions: Width, over nave, outside, 68 feet; width over transepts, 80 feet; length over all, 160 feet; height of nave, 50 feet; height of front gable, 65 feet.

WATERTOWN, N. Y.—Architect D. L. Kieff is drawing plans for the new Otis House, to be erected by the Otis estate at Watertown, N. Y. It will have 125 rooms.

MINEVILLE, N. J.—Peugnet Francini & Co., importers of and workers in marble, with their offices at 289 4th av, New York, have received the contract for the reconstruction of the interior of the Catholic Church of Sts. Peter and Paul, at Mineville, Essex County, N. J.

SCHENECTADY, N. Y.—The Hospital Association, of Schenectady, have purchased a site at the corner of Wendell av and Nott st for a new hospital building, and have appointed a committee to take charge of the undertaking.

ELBA, N. Y.—The Elba Manufacturing Co. will erect a new lumber factory at Elba, N. Y. The company will conduct a sawmill, handle raw material, and carry on a woodworking establishment. The directors are: J. E. Curtiss, of Barre; Wm. H. Barker and Wm. A. Hundredmark, both of Elba.

SAG HARBOR.—G. H. Cleveland has completed plans for a masonic hall to cost $10,000. The building will contain lodge and club rooms and an auditorium, 43x67, with 26-foot ceiling and stage, 24x61.

SYRACUSE, N. Y.—Andrew Telfer will erect twin houses at 607 Walnut st. The cost is estimated at $20,000. Ruston & Lewis have the general contract. Professor Hollenbeck, of Syracuse University, drew the plans. The houses will be Elizabethan in style. The site is considered one of the finest on University Hill.

WATERTOWN, N. Y.—The Massey Machine Company will build a manufacturing plant consisting of one main building, 100x150, and a storehouse in Watertown. The contract for the erection of the steel work has been let to the Gary Iron & Steel Works, of Cleveland, O. The contract for brick work has not yet been let. The plant will be located on the Pool farm in Pearl st. The officers of the company are Geo. B. Massey, president; Frank L. Massey, vice-president; George B. Massey, II., treasurer, and Walter G. Massey, secretary. The company is capitalized at $60,000.

DEPEW, N. Y.—The Gould Coupler Co., 18-20 West 34th st, N. Y. City, will build a steel plant in the village of Depew. The main building will be 390x275, of steel construction. The work is in charge of C. D. Eden, engineer for the company. It is expected to have the building completed and the work of producing steel commenced by Nov. 1st of this year.

ALBION, N. Y.—E. E. Joraleman has drawn plans for a new

school building to cost not more than $50,000. The plans include the old school building which, is to be remodeled at a cost of $17,000. The plans are now in the hands of the Board of Education.

CALEDONIA, N. Y.—The taxpayers have voted an appropriation of $20,000 for a new high school building.

DUTCH KILLS, L. I.—The paper mill to be erected here, for which Rossiter & Wright, 95 Liberty st. N. Y., are the architects, and Wight-Easton Construction Co., 160 5th av, contractors, is to be of concrete construction.

## Of Interest to the Building Trades.

Architect G. A. Schellenger has moved to 27 East 21st st, from 130 Fulton st.

Daniel W. Langton has moved to 1009 Fuller Building, Broadway, 22d and 23d sts.

J. Wallace Higgins has moved to 1009 Fuller Building, Broadway, 22d and 23d sts.

The design for the Gates av courthouse has been disapproved by the Art Commission.

The ordinance to limit the height of buildings in Manhattan to 150 ft. has been dropped.

Cass Gilbert has moved to 79 Wall st, the Orient Building. He will occupy the entire sixth floor.

A large building firm, fearing labor troubles, last week canceled an order to a firm of architects for plans for a 12-sty office building.

Anderson & O'Brien, metallic skylights and roofing, have removed from 506 West 29th st to better-equipped quarters at 512 West 48th st.

Ninety thousand dollars has been appropriated by the city for the construction of a new plant for the Bureau of Street Cleaning in the Borough of Richmond.

Bridge Commissioner Lindenthal has not as yet announced a decision on the bids received April 9th for constructing masonry pedestal towers for Manhattan Bridge.

The Mayor has authorized the appropriation of $5,000 for preliminary surveys for the proposed new bridge across the Harlem, from 207th st, Manhattan, to 184th st, Bronx.

The lowest bid received April 22 for erecting a male servants' dormitory at City Hospital, Blackwell's Island, was submitted by Jos. E. Butterworth, 2070 Ryer av, at $39.597.

It is expected that the Mayor will approve of the Marshall bill, which takes from the Board of Aldermes and gives to the Board of Estimate power to open and close streets.

Well, May Day has come and gone, and our builders still live.

Mechanics should not get too gay in good times, as the pitcher may be broken at the fountain, and the wheel broken at the cistern.

Peugnet, Francini & Co., importers of and workers in marble, have removed from 14 Maiden lane to 289 4th av. They are the successors to the Architectural and Ecclesiastical Art Company.

For furnishing and erecting an iron fence on St. Mary's and St. James' Parks, Bronx, 4,820 linear feet, the bids were: W. D. Bayley, $8,145.80; Louis Wechsler, $10,604; F. E. Carpenter & Co., $8,917; Bart. Dunn, $9,206.20.

Mr. W. H. Nesbit, of Pfotenhauer & Nesbit, St. James Building, has returned from a trip to Cuba. The firm expect soon to put a glass building brick on the market, for greenhouses, summerhouses, bay windows, etc. The brick, hollow and translucent, is made of pale green glass, blown like a bottle.

Two men were badly injured on Monday by the fall of a derrick at Atlantic and Saratoga avs, Brooklyn, where work is going on in connection with depressing the Atlantic av division of the L. I. R. R. James Le Gates, who has charge of the work, was arrested on a charge of criminal negligence.

A corporation desires to establish a large plant for the manufacture of fireproof sheet metal building material, and solicits correspondence with the commercial interests of towns and cities that can offer inducements. Address M. J. Sullivan, 253 Broadway, New York.

We have received from Toch Brothers, the well-known paint makers, a pamphlet copy of the very interesting address on the Permanent Protection of Iron and Steel, delivered by Mr. Maximilian Toch before the New York section of the American Chemical Society on March 6th last. Extracts from this address have already appeared in the Record and Guide.

F. R. Houghton has moved from 111 Broadway temporarily into the basement corner room at the southwest corner of Cedar and Temple sts (Boreel Building, 115 Broadway) until such time as he can occupy his regular rooms on the first floor, which will probably be on or about June 1st, contingent upon the Home Fire Insurance Co. removing to their new building in Cedar st.

The Art Commission has accepted the design of the Hon. Jacob A. Cantor, Borough President, for the Greeley Square Public Comfort Stateion, which is of record. Plans have also been submitted for three other locations, at Union square, Columbus Circle, and Madison square, but they were so indefinite and incomplete as to render action impossible. The plans for the Chatham Square Station also await approval.

## Material Market.

Work is still being held back to await more definite determinations of wage scales which the first week of May will bring. Architects, engineers and contractors must know what they can figure on to near a certainty before giving estimates of costs or assuming obligations. While building is for this reason passing through a brief period of comparative dullness, yet for some kinds of material there has been a larger call, as though builders were accumulating stock so as to have some to carry them over a few days should deliveries for any reason be suspended or made difficult next week.

### COMMON BRICK.

This material has been taken out so rapidly this week that there has been no opportunity for accumulations in the Hudson River market. Cargoes have not had long to wait for buyers, and prices have stiffened and advanced. No one has yet quoted $6 for Hudson Rivers, but specials are commanding within a shilling of it.

On Monday the manufacturing season opened by the ruling of the Association, and all along the river, above the Tappan Zee, the shrill shrieks of brickyard whistles were heard at daylight. Judging by the silent yards, there will be less manufacturing than last year. One of the three Timoney yards at Fishkill is dormant; T. & G. Peck of Haverstraw will not run their river yard; Morrissey & Co. will run but one yard at the same place instead of two; and Worrell & Brynes will not do anything. The Ericksons have been unable to rent three of their yards at Haverstraw, but will themselves manufacture. The firm of Rowan & Scott, at Haverstraw, has been incorporated as the Garner Brick Works.

On Monday a strike was made by the pit shovelers at the yards of Lynch Bros., Bennett, De Noyelles and Malley, at Haverstraw, for 25 cents a day over the $2 which they had been getting, and the employers submitted. Brickyard help is scarce this year; the influx of negroes from the South for some reason has not been so large as usual, and some manufacturers are having difficulty in getting help. The Italians, Huns, Slavs and Poles have in turn drifted away from brickmaking, and now the negroes seem to have a notion of backing out. Tobacco interests in the South are said to be keeping negroes well employed there this season. So scarce were laborers at some of the Fishkill yards this week that Italian women worked beside their men for awhile.

### GERMAN CEMENT TRADE.

The numerous efforts which have been made during the past two or three years to form a general organization of the cement industry for all Germany having previously failed, it was feared that it would still be impossible to get the producers together, but their hard experiences during that time have evidently produced the conviction that a common arrangement of some kind is a necessity. At a recent meeting the chairman stated that the factories were running at only half of their capacity, and that, in spite of this reduced production, prices were still extremely low; he therefore argued that it would be necessary, not only to fix prices by mutual agreement, but to limit production by assigning to each factory a yearly quota of cement to be produced. This latter idea, however, met with considerable opposition, and a committee was appointed to go over the whole ground and try to find an acceptable basis for co-operation. It is regarded, however, as very doubtful whether it will succeed in effecting an organization which will bring a return of prosperity to the cement trade in Germany.

## Action Rescinded.

The Board of Estimate and Apportionment at the meeting Friday afternoon rescinded the condemnation of the block bounded by East 126th and 127th sts., 1st and 2d avs., as the approach to the Willis av Bridge. The property is occupied by Sulzer's Casino and Park, and is owned by the Sulzers, the Ingraham estate and the Palmer estate. The Harlem taxpayers say the improvement is not needed. The case was reopened by the Board as the result of a petition to the Mayor signed by 500 of the leading property owners of the vicinity.

Three million dollars worth of 3½ tax-exempt gold bonds payable in fifty years will be sold Tuesday, May 12, by Comptroller Grout. For partieulars see advertisement in another part of this paper. These bonds are offered direct to investors.

—The Fine Arts Federation has formally recommended to the Art Commission that the sculptures of the Hall of Records at or above the sixth story of the building be of granite, but that the two groups and the two seated figures below be of bronze. In regard to the choice of subjects for the sculpture it is advised that the twenty-four statues should represent historic personages, possibly seleeted one from each decade, thus representing the age of the city. In the two groups of the Chambers st entrance, the earliest inhabitants, the Indians, and the first residents, the Hollanders, should be represented; while in the two seated figurcs on the Reade st entrance, the later settlers, the French and English, could be represented.

## CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate convcyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

April 24, 25, 27, 28, 29 and 30.

General conveyanee of all right, title and interest in all real and personal estate whereof Stephen Jumel or Eliza B his wife died seized in N Y or elsewhere, to be sued for and to be prosecuted; declaration that property intended to be conveyed is as follows.

Plot of about 210 acres bounded on n by Havens-Arden, Susan Bauer estate, on w by Hudson River and 14th av, on s by Burkman-Murry-Beekman, George Weir and Lynch estates, on e by e l 5th av and Susan Bauer estate, n e and n w to Albany Post road, situate in former 9th Ward of N Y City on Harlem now Washington Heights, and which boundary lines may now properly be described as extending from 157th st to Fort George and from Hudson River to Jerome and Bronx Parks, being same tract conveyed to Stephen Jumel by deed dated June 25, 1810, L 88 page 86, and which Stephen Jumel conveyed to his wife Eliza B in 1826, except therefrom 65 acres which he reserved for himself.

Declaration that above tract is now partially claimed and occupied by squatters, by pseudo lotholders, claiming title under deed of trust to Mary A Bownes, later Nelson Chase's wife, also by bona fide purchasers of 2-3 interest in the 65 acres reserved as above, the title to latter being hereby confirmed under plan of lots sold by Philo T Ruggles, auctioneer, and also confirm sale of about 100 small lots in 1882. 1-3 part.

Declaration that deed recorded July 18, 1901, of property at s e cor Boulevard and 171st st, 95x100, is a forgery, as far as regards signature of John R Vandervoort.

Declaration as regards tract of 210 acres that all seizures and condemnations made by officials of N Y City of land for schools, parks, speedway, Washington and other Boulevards and sts and for stations of Rapid Transit Subway were made without consent and under protest.

Declaration that lease of portion of 165th st, near Amsterdam av, &c, was made without authority, and property so leased does not belong to the ground of the Blind Asylum.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows; then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

April 24, 25, 27, 28, 29 and 30.

### Unguarded Excavations.

A judgment on a verdict recovered by Charles Ann against Peter Herter for injuries which he received by falling into an unguarded excavation in front of premises owned by the defendant has been affirmed by the Second Appellate Division. Mr. Herter, on the appeal, contended that he was not liable because the excavation had been made by an independent contractor. Whether this was so or not, was disputed, and on a submission of the question to the jury, that body found in favor of the plaintiff. But even if the evidence bad established that the work was done by an independent contractor, the court decides that the independent contractor doctrine did not apply, but that an exception to that rule did. This exception is, said Justice Jenks for the court, "that when the work itself creates the danger or injury, then the owner of the premises, who made the contract, is liable to persons injured by the omission properly to protect the work, and cannot shield himself by plea and proof that the work was entirely committed to an independent contractor.

### Some Uses for Waste Products.

Slag from blast furnaces is now sometimes used as a substitute for stone in concrete. It is an excellent material for this purpose, being much lighter than ordinary stone and entirely fireproof. In the granulated form it becomes a substitute for sand for cement mortar, and in many parts of the country, where sharp bar sand is neither abundant nor cheap, it can be used advantageously. Another substitute for sand for the same purpose is ordinary coal ashes, and this has been used to some extent with satisfactory results. Oyster shells make an excellent top dressing for macadam roads, making less dust than ordinary stone; and in the northern portion of an American city a road with an oyster shell top dressing and subjected to heavy traffic is giving good results.

### Fire-Resisting Mortar.

The discovery is reported that serpentine rock, when powdered and mixed with good lime, forms a mortar that will successfully withstand heat to 1,100° F., and will not crack if subjected when at this heat to contact with cold water. The new material, besides being in the highest degree fire-resisting, is also declared to be so elastic as not to crack when the building settles and permits of nails being driven into it. It is said to be one-third lighter than ordinary mortar, easy to handle, and capable of receiving decoration.

Mr. W. R. Creed, of 18 Broadway, has just returned from a Pennsylvania tour, visiting the hemlock districts. Wiley, Harker & Co., of this city, have received word that a schooner loaded with North Carolina pine, from Wilmington, N. C., and consigned to them, has gone ashore on Frying Pan Shoals. The Export Lumber Company, the Hilton & Dodge Lumber Co., and Gouverneur E. Smith will be tenants of the new Whitehall Building after May 1.

## CONVEYANCES.

Whenever the letters Q. C. and C. a G. are preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hat not done any act whereby the estate conveyed may be impeached, charged or encumbered.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows; then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

Vol. LXXI. MAY 9, 1903. No. 1834.

THE Stock Market prospects are not quite so good at the end of this week as they were at the end of last week. The danger of gold exports is more imminent than it has been at any time this spring, the crops of cotton, corn and spring wheat are all exceedingly late in being planted, and will be consequently the more exposed to damage in the fall, and there is evidence of very persistent selling of stocks just as long as there are any buyers to take them. These conditions taken together have been sufficient to bring about a lower level of values, not a very much lower level, but one that is significant. It is apparent that large owners of stocks have good reasons for selling them as soon as they can do so without sending prices down very quickly, and it may be inferred consequently that in a sense the liquidation is not yet over. As long as this selling continues, there is no chance for even a moderately bullish movement, and this in spite of the fact that railway earnings continue to be truly extraordinary. There seem to be no end to the increases, which follow one another year after year, and which enable the railroads to appropriate large sums out of net earnings for comparatively permanent improvements. It is this great margin between the amount of money earned and the amount distributed in dividends, which justifies the belief that the railroads will be able to get over the next period of business depression much better than they did over 1903. The chances for economizing when economy becomes necessary are so considerable, that on the whole it may be assumed that the values of railway securities have a much more stable basis than ever before.

WHY is it that the Board of Aldermen never seems able to take a wise and liberal attitude toward the various public questions which come before it for consideration? Why is it that it persists in undermining the little public confidence that it still manages to retain by adopting an obstructive attitude towards desirable public improvements? Before consolidation it had been stripped practically of all its powers. Under the first charter after consolidation, it received a large increase of authority, which was found to work so badly, that when the charter was revised, the Common Council was cut out entirely, and the powers of the aldermen over bond issues were curtailed. At the same time it was left with very considerable authority in certain directions, which it has been faithfully abusing ever since. In the case of the contract with the Pennsylvania road, it carried its obstructive tactics just as far as it dared, and showed so clearly the animus which it brings to bear on municipal questions that it became necessary to diminish its authority by depriving it of any control over changes in the city map. At the present time it refuses obstinately either to appropriate the beggarly $10,000 which is needed to pay the expenses of a commission to revise the street plan of New York, or to sanction the privilege which it is proposed to grant to the Bronx trolley roads to lay tracks across the Macomb's Dam Bridge. The laying of these tracks is extremely necessary to the residents of the Bronx, the franchise provides that abundant compensation shall be paid to the city, and it has been approved by the Board of Estimate and Apportionment, the Sinking Fund Commission and the aldermen's own franchise committee, but the Board at the instance of a Brooklyn clique stubbornly refuses to acquiesce. Its power is used so blindly and with such an utter disregard of the major public interests, that it seems sometimes as if its course were merely a fulfilment of the old Greek maxim, that whom the gods destroy they first make mad. That the Board should prove to be such a constant source of obstruction to the city's administrative machine is exceedingly unfortunate, because it has a very real function in the mechanism of the city government—the function, namely, of checking the work of the powerful administrative boards, but a check that consists merely of persistent and sometimes malicious obstruction is a check which an efficient and sensible community is bound in the long run to dispense with. In the case of the Macomb's Dam Bridge franchise, the offense is all the worse, because it is Brooklyn members who are refusing a necessary transit improvement to the Bronx, and as we pointed out last week, Brooklyn itself is being immensely favored over the Bronx in this respect.

THE labor troubles in the building trades have undoubtedly during the past week become more threatening than at any time throughout the spring. The dispute between the two rival unions of carpenters is becoming more rather than less dangerous, and before it is done may well spread to the other trades. But this cause of trouble, dangerous as it is, is on the whole less ominous than the results, which have attended the attempt of the Board of Building Trades to unionize the building material drivers. The Timber and Building Material Dealers' Associations have been obliged to unite in order effectually and resolutely to oppose the demand, and it remains to be seen whether their opposition, which has taken the form of a lockout, will be effective. In any event the situation thus created presents very alarming possibilities. Should the fight be prolonged it means in about a few weeks the cessation of building operations throughout the city, and the indefinite delaying of many important public and private improvements. That however is only an incident, for the consequences of acquiscence in the demands of the union would be much worse than the consequences of even a comparatively long cessation of building. If the building material drivers' are completely unionized, it would go a long way toward giving the Board of the Building Trades absolute control over the building business in New York. The most potent weapon which the unions wield at the present time is undoubtedly the sympathetic strikes, and if the circle of the sympathetic strike were enlarged so as to include the building material drivers the weapon would become too powerful to be endured. The employers must offer a stout resistance to any increase in the effectiveness of a weapon, which has in the past inflicted so many severe wounds, because if they did not the inevitable result would be a prolonged and disastrous conflict between the two ends of the New York building trades. It will be wise for the union leaders to avoid such a conflict. Skilled labor has of late very much increased its wages and improved the conditions under which the work is performed by not making any intolerable demands and thus encouraging a general strike, but the time might easily come when the employers would be forced to the conclusion that the exactions are becoming so onerous that they can no longer conduct their business with safety and profit. If thtat time should come, it would be a very bad thing for the unions, as well as for everyone else connected with the building trades.

IT is settled that New York is to have a new County Court House, for the Governor has signed Senator Dowling's bill, authorizing the Mayor to appoint a Construction Committee. The selections will surely be made very soon, because the justices of the Supreme Court and the lawyers certainly have a great grievance in being obliged to inhabit the present ill-arranged, ill-ventilated, and over-crowded building, and before the month is out the commission will doubtless have its work well started. It will have the power to select part of the City Hall Park as a site, provided the area chosen is not greater than the area of the old buildings destroyed; but the members of the commission should be warned in advance that, if they attempt to make use of this opportunity, they will simply be delaying the construction of the building. The Municipal Art Commission would be false to the purpose for which it was instituted in case it consented to the occupation of City Hall Park with another big building, and it is safe to argue from the known opinions of the members of the commission that it will inflexibly oppose such a selection. The City Hall Park needs clearing out rather than filling up with a new building which even if it covered only the same area as the old buildings, would by its great height and bulk, effectually and finally destroy any chance of giving the City Hall spacious and dignified surroundings. But while the building should not be situated in the park, it should be situated in the immediate vicinity thereof; and it is too bad that the selection cannot be made as a part of some general scheme, which would include all the various improvements which will have to be made in that vicinity.

THE details of the plans for the new Wanamaker store, which have been given out during the past week, contain many novel features. A retail store thirteen stories high is for instance a great innovation. The Macy store with its nine stories was supposed to have reached the limit in that respect.

A retail store cannot run too far up in the air, because the enormous crowds that have to be carried up and down require an amount of elevator space that seriously diminshes the floor area, but apparently Mr. Wanamaker has found that he can afford the elevator and stair space for a building thirteen stories high. After the provision for circulating a great many thousand people within a building of this kind, the next most important problem is that of fireproofing, for the character of the protection offered against fire, saves the shop-keeper thousands of dollars a year in insurance premiums. In this respect the Wanamaker stores are said to be an improvement on any similar structure that has preceeded them. Apparently also, the building is to be much more handsomely finished inside than has been usually the case with department stores, and it will contain a number of novelties, in the way of music rooms and the like, which will very much add to its popularity. In short Wanamaker's new store will do even more than that of R. H. Macy & Co., to provide New York with a metropolitan sensation, and to attract the attention of strangers from other cities. The modern movement in department store building, which started in with the Siegel-Cooper store has now reached its culmination and curiously enough it culminates next door to the old Stewart building, which was the sensation of twenty-seven years ago.

## Real Estate Situation.

The market during the past week has been characterized by a large amount of miscellaneous trading, chiefly in small dwellings, flats and tenements, and it is evident that the summer dullness is beginning to be felt. The real estate season of 1902-3 is about over. The big realty companies have ceased buying for the present, and will in all probability keep very quiet all summer. They have a large amount of building ahead of them and are likely to be fairly well occupied with labor troubles. Neither are the business men, whose demand for increased space is such an important factor in the market, likely to do very much more buying. Of course the tenement house operator is always with us, and will continue throughout the summer to plan new tenements, but even he will diminish his pertinacious and ubiquitous activity. The season which is thus closing has not quite come up to expectations. It looked at one time as if a really popular buying movement was about to set in, but, although there have been periods in which the amount of business consummated was extraordinarily large, the market soon dropped back chiefly into the hands of speculators. It should be added, however, that the causes which have produced the activity of the past few years have by no means expended their force and that if labor and money conditions are favorable next fall, we expect that the totals even of the present year will be surpassed. On the other hand there is undoubtedly great danger that labor and money conditions will not be favorable and that building will be very much curtailed, because of disputes in the building trades and trouble in the money market.

**A Miscellaneous Market.**

Two or three transactions of the past week are worth particular mention. The purchase of a corner of Seventy-first Street and Park Avenue by Secretary Root as the site for a residence will undoubtedly stimulate the movement looking toward the transformation of that avenue into a thoroughfare of first-class residences as soon as electricity is substituted for steam as the motive power in the tunnel, it should be second only to Fifth Avenue as a situation for buildings of that description. The noise of trains passing in the tunnel will be less objectionable than the surface cars on Madison Avenue and Park Avenue, also has the advantage over, its parallel to the west, of being more spacious and attractive. Except on a few corners, which are covered with large apartment houses, the present buildings will not be an obstacle to rebuilding, and we may expect that the avenue will prove to be a favorite field for speculative operators during the next few years. The probability that the engineering societies will erect a large club-house running through from Fortieth to Thirty-ninth Streets, west of Sixth Avenue has also a peculiar interest. It is extraordinary that clubs looking for sites for new houses have not appreciated sooner the enormous advantage for such a purpose of the block fronting on Fortieth Street facing the new public library and Bryant Park. No more central and advantageous location for club-houses or apartment houses could be found in the city, yet it was overlooked until the Republican Club decided to move around the corner. As almost all the New York clubs now inhabit modern buildings, it is probable that the example of the Republican Club will not be followed in very many more instances, but the apartment hotel builder will be likely to come in and eat up the remainder of the block. Finally we should like to call attention to a very unusual apartment house plan, which has this week been filed with the Building Department. This is the plan for a nine-story fireproof tenement to be erected on lower Second Avenue. So far as we know this is the first instance of the erection of a fireproof apartment house in this region, and regular operators are sceptical as to the success of the experiment. The plan calls for four five-room apartments on a floor, and very fair rents will have to be obtained in order to make the enterprise profitable, but lower Second Avenue is the East Side boulevard and the favorite domicile of the East Side aristocracy, and it may be that conditions justify fireproof buildings.

**Fifth Avenue Again.**

The most important item in the news of the week concerns as usual Fifth Avenue. Another of the large parcels of property, which have been held by speculators for improvement has had its fate decided and has passed into permanent hands. This time it is the old Corbin house on the northeast corner of Thirty-eighth Street, and the lessee is a florist, who has been forced by the Tiffany purchase to vacate the southeast corner of Thirty-seventh Street. Thus does one change lead to another. The Gorham removal doubtless encouraged that of the Tiffany Company. Tiffany displaced Siebricht, and, perhaps, the appearance of Siebricht in such a fine shop, may induce some of the big Broadway florists to consider a Fifth Avenue site. But added that there is plenty of additional room on the avenue, and plenty of other Broadway and Twenty-third Street retailers to move, one could mention a dozen big retail shops, which will in the end be pursuaded or forced to seek Fifth Avenue locations and pay Fifth Avenue prices. Values will get even higher, and the less remunerative shops will have to seek neighboring locations on the side streets. All this will take some years to accomplish, but it is obviously on the cards. A few years from now the old brownstone residences will, between Twenty-fifth and Forty-seventh Streets, be practically things of the past and in their place will appear all sorts and kinds of buildings, presenting chiefly surfaces of plate glass to the street, and housing the most handsome and exclusive shops in New York.

It is interesting to note that Fifth Avenue is not tending to be to any great extent an avenue of skyscrapers. In spite of the enormous prices, which are now being paid for property on the avenue, the new buildings which it is proposed to erect are mostly of a comparatively moderate height. The Siebricht, Tiffany and Gorham buildings will none of them be more than eight stories high, and the only structures taller than these between Thirty-fourth and Forty-second Streets are the Aeolian and Knox buildings. For the most part the new tenants of the old houses have been content merely to remodel them, and even when they were entirely reconstructed as in the case of the Haskel & Haskel and Pennsylvania Railroad buildings, it is only a matter of a five succeeding a four-story building. The reason for this is sufficiently obvious. It is not easy to find purposes for which the upper stories can be leased. There is room of course for a few big apartment hotels like the Lorraine, but to line the whole avenue with such accommodations would be to exhaust the market very soon. In the same way tall office buildings pay on the corners of such streets as Thirty-fourth and Forty-second, but there is insufficient demand for offices in that section to warrant very many office buildings. Neither is Fifth Avenue a location in which lofts are of much use, except lofts as adapted to retail purposes. But for retail purposes the building should not be too high, and consequently the height of these structures is being kept down. The time will doubtless come when many of the buildings now being re-modeled will be replaced by skyscrapers, but the conditions do not as yet justify many such improvements.

## Financial Side of the Building Crisis.

In conversation with a Record and Guide representative in regard to the embarrassment of builders and operators caused by labor unions, Mr. E. O. Stanley, Treasurer of the Title Guarantee and Trust Company said:

"The main business of the Title Guarantee and Trust Company is to examine and guarantee titles, and our only connection with the building business is through the building loans and permanent loans which we are called upon to make. We appreciate that building has been much hampered of late owing to the difficulties experienced by builders in obtaining loans. In this respect we think that an improvement is probable.

"For about a month back, builders have been met with an absolute refusal even to consider their applications for a loan, but we now find institutions willing to listen to propositions, and some loans of considerable size are being negotiated at favorable rates. The easier condition of the money market and the more favorable attitude of the large institutions must make

the building situation more easy. There are some features which are not favorable. The high cost of material and the very serious labor troubles, in themselves, threaten to paralyze the building industry in this city, and possibly in other cities, if the differences between mechanics and builders are not adjusted.

"It is a fortunate thing that the construction companies are strong and competent to carry on the compaign to a result which will be best for the real estate and building interests.

"The Title Guarantee and Trust Company continues to be ready to receive applications for both building and permanent loans, and if money can be found anywhere for such purposes, we are prepared to furnish it."

6TH AV.—Sarah M. Belding has sold 389 6th av, southwest corner of 24th st, a 4-sty brick building, on lot 24.8¼x66.3, occupied by Koster & Bial. The price is understood to have been $175,000, although this could not be confirmed. The parcel contains about 1,635 square feet, which would be at the rate of $107 a square foot, which has been exceeded on this thoroughfare by the purchase of the northwest corner of Broadway and 34th st, by Henry Siegel, who paid $324.95; also the northwest corner of 6th av and 22d st, for which Ehrich Bros. paid $148.22 a square foot; Charles Daly paid $118.77 for 351 6th av, and Henry McAleenan paid $132.44 a square foot for 594 6th av, southeast corner of 35th st. These prices are all over two years old; considering the advance in values that has taken place on this avenue, it cannot be said that $107 is a high price for this property. The adjoining parcel on 6th av is owned by Samuel J. Adams, and the adjoining parcels in the street are owned by the Darline estate.

56TH ST.—The O. B. Potter estate has sold 108 West 56th st, a 2-sty brick private stable, on lot 25x100.5. Henry D. Winans & May were the brokers.

LEASES.

The following are a few of the leases recently negotiated by N. Brigham Hall & Son, for John Howard Wright to E. J. Bradley, for three years, the 4-sty dwelling 29 West 39th st; for Cornelius F. Kingsland to various lessees, five lofts at 495 West Broadway; for Fannie E. Clark, the building 125 West 29th st; for William P. Dixon to Ernest de Ville, building 123 West 29th st.

Chas. H. Easton & Co. have leased for the estate of William Cunningham to Mrs. Jennie Tillotson for a term of years the 4-sty dwelling, 248 West 42d st; also for Mr. Woodbury G. Langdon, in conjunction with Floyd Clarkson & Son, the 3-sty building, No. 127 West 41st st, for a term of years, to Mr. Paul R. Feisinger.

E. V. Pescia has leased for Vincenzo Garofalo the two 5-sty tenement houses 321 and 323 East 114th st, for a term of years at an annual rent of $3,630.

The United States Realty and Construction Company has leased, through Pease & Elliman, the old Austin Corbin residence at the northeast corner of 5th av and 38th st, on a plot 61x100, with an adjoining lot on the street, 25x98.9. The lease is for twenty-one years at a yearly rental of $36,000. The lessees are Siebrecht & Co., florists, who will make extensive alterations to the building, converting to business purposes for his own use and that of sub-tenants. The owners bought the property in December, 1901, from Charles T. Barney, who had acquired it the year before that from the Corbin estate. The lease is interesting, following as it does so closely the purchase of the Paran Stevens property by Tiffany & Co.

Eli Sink has leased for the Hadley estate to Chas. R. Faruolo 614-616 East 13th st, two 4-sty tenements, on a plot 50x100, for a

term of 42 years at a total rental of $38,000. Charles R. Faruolo has leased for F. W. Hunter 28 Chrystie st, two 6-sty tenements at a total of $20,000.

M. & L. Hess have leased for the Van Beuren estate from the plans, the new 6-sty and basement building to be erected at Nos. 38-40 West 15th st, size 50x103, for a term of 10 years to E. F. Caldwell & Co. at a rental aggregating $115,000.

Ogden & Clarkson have leased for the estate of Nathaniel Niles to the Rosenfield Manufacturing Co., the store and basement at 1259 Broadway; for J. H. Burton, in connection with Butler Davenport, the store at 434 5th av to Burby, Webb & Company; for E. H. Landon, two stores at 60 and 62 West 21st st, to David B. Hall and Peter Gerlaird respectively; to Meyer & Postley, the store at 1385 Broadway; to Rosenfeld & Murphy, a floor at 140 5th av, for Helen C. Juilliard; in conjunction with H. H. Cammann & Company, the store and basement at 862 Broadway, to C. E. Riker; and, in conjunction with Daniel Birdsall & Company, the stores 1142 to 1146 Broadway, to D. Ringgold & Co., J. Mackintosh, and S. P. Carmichael, respectively; and for F. W. Marks, to L. Finsterbusch, a loft at 101 5th av.

## Real Estate Notes.

S. Osgood Pell has removed from 685 Broadway to 19 Union Square, West.

Slawson & Hobbs were the brokers in the sale of No. 638 West End av for the Realty Improvement Co. to Orison B. Smith.

Chas. E. Duross has moved his real estate office into the office lately occupied by the Rheinlander estate at 155 West 14th st corner 7th av, where he occupies the whole building.

Wm. Lemberg & Co., to better accommodate their increasing business, have removed to larger offices at No. 150 Nassau st. The new suite is on the 10th floor, Rooms 1012 and 1013.

M. E. Hewitt & Co.'s long-established office has removed from 1564 to handsome quarters at 1566 Broadway, between 46th and 47th sts. The business will be continued on the same lines that have brought success in the past.

J. B. English, late of the firm of M. E. Hewitt & Co., has retired from the firm and opened well-equipped offices at 1560 Broadway, between 46th and 47th sts. Mr. English is an energetic worker and for fourteen years has made a specialty of the sale, rental and management of realty in the Long Acre Square section. His telephone call is 4052 38th st.

The Finance Department of the city government is to have basement, and the first, second and third floors in the new Hall of Records. The Department of Taxes and Assessments and the Commissioner of Jurors are assigned to the fourth floor. The fifth floor is set aside for the Surrogates' courts and offices. The Law Department is to have the sixth and seventh floors, and Register Ronner is to have the eighth floor and the attic.

Lester Schutte, formerly of the offices of Louis Becker Co., has opened offices for himself in the Adeline apartment building, which he manages, at the southeast corner of Amsterdam av and 160th st, for the purpose of conducting a real estate and insurance business. Mr. Schutte's offices are thoroughly equipped, and he will be pleased to welcome Washington Heights property-owners and his clients. He will make a specialty of the management of apartment houses.

The brokerage firm of Lovejoy & Noyes has recently been incorporated under the laws of the State of New York for $30,000, under the style of the "Lovejoy and Noyes Company." At a meeting of the directors held this week, Irving P. Lovejoy was elected president of the corporation; Lewis H. May, vice-president, and Charles F. Noyes, secretary and treasurer. Mr. May has charge of the Arverne office of the corporation. The main offices have been removed from 62 Cedar to the Wyllys Building, 92 William, near Maiden lane. The company is pleasantly situated in their new offices, occupying the entire front half of the third floor of the building, which is being fitted up to meet the requirements of the business, which has rapidly increased in volume during the last few years. The company was established five years ago, and the growth has been a steady one.

The Title Insurance Company of New York has established a branch office in the Prudential Building at Buffalo. The Buffalo branch will be conducted by a board of managers consisting principally of representatives of the local bar and real estate interests, among whom may be mentioned, Messrs. Charles B. Wheeler, Frederick G. Mitchell, Francis L. Hoff and Leonard F. Grover.

## Action by the Mayor on Legislative Bills.

As a result of a hearing on Monday, Mayor Low accepted the act passed by both branches of the Legislature, entitled an act to amend the Greater New York charter by providing for a separate statement of the value of land in assessments of real estate and for the publication of the annual record of the assessed valuation of real estate in the city of New York. An effective address in opposition was made at the hearing by Mr. Guernsey of the Bronx. The Mayor, on the other hand, has rejected the bill to amend the Greater New York charter relative to the composition of the board of taxes and assessments.

The Mayor has also signed the bill requiring the Long Island Railroad Company to abolish its 65 grade crossings in Brooklyn.

It is unlikely that Mayor Low will approve the bill introduced by Assemblyman Neville exempting the real estate of religious corporations from assessment for local improvements. If the bill becomes a law no religious corporation could be assessed for the original paving of a street on which its property fronts, or for the building of a sewer for its use. Real estate occupied by religious and charitable corporations is now exempt from general taxation. Corporation Counsel Rives says that the bill would benefit Mr. Neville largely, since he is counsel for the Trinity Church Corporation in many suits it now has against the city to recover assessments. These suits seek, he says, to recover $87,835.58 paid in assessments which the city under the bill would have to return with interest amounting to $168,640.

## The Lawyers' Mortgage Insurance Company.

At the annual meeting of The Lawyers' Mortgage Insurance Company, held at the board room, 37 Liberty st, on May 4, the following directors were elected for the year: Joseph S. Auerbach, of Messrs. Davies, Stone & Auerbach; Clarence Cary, of Messrs. Cary & Whitridge; Edwin W. Coggeshall, President Lawyers' Title Insurance Co.; Joel B. Erhardt; Cecil C. Evers, Secretary; Charles S. Fairchild, President N. Y. Security & Trust Co.; Anson W. Hard, of Hard & Rand; Henry E. Howland, of Messrs. Howland, Murray & Prentice; Richard M. Hurd, President; James H. Hyde, Vice-President Equitable Life Assurance Society of the United States; Myer S. Isaacs, of Messrs. M. S. & I. S. Isaacs; John T. Lockman, of Messrs. DeWitt, Lockman & DeWitt; William H. McIntyre, Fourth Vice-President Equitable Life Assurance Society of the United States; Henry Morgenthau, President Central Realty Bond & Trust Co.; David B. Ogden, Vice-President Lawyers' Title Insurance Co.; George L. Rives, of Messrs. Olin & Rives; O. Egerton Smith, Treasurer; George H. Squire, Financial Manager Equitable Life Assurance Society of the United States; Herbert B. Turner, of Messrs. Turner, Rolston & Horan; Henry Rogers Winthrop, Assistant Secretary Equitable Life Assurance Society of the United States; and at a meeting held by the above-named directors, the following officers were elected for the year: Richard M. Hurd, President; Edwin W. Coggeshall, Vice-President; Charles S. Fairchild, Vice-President; David B. Ogden, Vice-President; O. Egerton Schmidt, Treasurer; Cecil C. Evers, Secretary.

—Workmen give as a reason why they should have more, that the cost of living, including rents, has greatly advanced. They apparently to not see that this advance is largely the effect of their own acts.

—When mechanics have had opportunity to mediate upon the full consequences of a general tie-up of the building business, they will perhaps come to some sane conclusion. It is the intention of the material dealers, more courageous than the builders, to give them that opportunity.

—In a proclamation issued yesterday, Mayor Low calls upon the people of New York to make the week beginning May 24 and ending May 30, which has been designated by the Board of Aldermen for this purpose, a gala week in this city, in celebration of the founding of municipal government.

# The World of Building

## The Labor Situation.

From an unexpected quarter a labor cyclone is upon us. The shutting down of the yards of the dealers in masons' building materials and lumber capped the climax. With no bricks, cement, lime, sand, plaster or lumber procurable, with no trucks to haul it if it were, with carpenters out and laborers of various sorts indisposed to work, the time is opportune for builders and dealers to take a vacation, to go fishing, or to stay home and smoke, spit and cultivate the garden.

As a general statement it may be said that building work is about all tied up. The exceptions are where buildings are in the hands of painters, ironworkers or such trades as are for the time being independently situated. Building cannot proceed far without bricks, lime and cement, and the eventual result, in cases where it has not already been reached, is inaction.

The dealers in masons' building materials have for a long time been annoyed by the attempts of outside team-drivers and handlers to unionize their yards and otherwise interfere with their business; and though seldom do employers assume the aggressive they have in this instance, acting through their association, declared a lockout. These yards shut down Tuesday night, with a single exception, and this one closed on Thursday. On Wednesday night the lumber yards closed, with some exceptions, until the unions shall withdraw their demands. Last week Thursday the Board of Building Trades called on the dealers in masons' materials and certain lumber yards to sign an agreement, which in part says:

> The party of the first part agrees not to hire any person not a member of the organization named as the party of the second part, to drive his or their vehicles for the delivery of building materials of any kind whatever to any building within the Greater New York and vicinity and to pay the members of said association the rates hereafter set forth and to employ them upon the conditions herein specified.

The lockout directly affects 3,200 drivers and 750 building material handlers at present. It will eventually affect every building and 100,000 workers in the city. It does not extend to Brooklyn.

This is the paramount occurrence of the week in the building trades, though the Brotherhood carpenters have renewed their attacks upon the Amalgamated men, and the excavators and house shorers and movers have also been enticed away from their bread-winning. With Topsy-Turvy thus enthroned, it matters only a little whether more trouble be brewing or not. The masons show signs of unreasonableness again, and the hod carriers have made a demand fourteen inches long to go into effect on June 1. It only remains for real estate and dependent interests to hope that the sober second thought will not be long in coming to the union leaders.

The Building Material Dealers' Association held a meeting at 18 Broadway on Monday while the Lumber Dealers' Association was meeting, and both organizations agreed to act together to oppose the demands. Delegates from the Brick Manufacturers' Association attended both meetings and agreed to coöperate in any plan which would bring order out of the confusion created by the arbitrary demands of the union. The Mason Builders' Association is in sympathy with the movement, so that the door is locked on both sides. Employers in all branches think that the time has come when Labor should rest content.

The question as to building operations keeping up under higher costs can only be answered by experience. Some say building will continue until investors can no longer see profitable returns, then costs, including wages, will fall in consequence of inactivity and the inevitable depression. When the descending scale reaches in turn one paying level after another, building will be resumed. There is a level of costs at which some kinds of constructions are profitable while others are not. The hardships that will have to be endured in the interim are left for contemplation by others. Builders in their general policy have avoided the duty, as some might say, or at least the responsibility of opposing seriously the upward tendency of wage scales, by leaving the decision to owners, operators and natural consequences. One of the elements of costs is not the actual wages, but the length of the working day and the degree of faithfulness of the worker. In hours there has been a reduction from ten to nine and finally to eight, and in fidelity a serious deterioration.

"Any one who has watched a crew of men at work recently," remarked a lumber dealer when defending his own trade from the charge of high prices, "can readily see wherein comes a very large proportion of the increased cost of building. As the time approaches for them to commence work, there is no hurry to get out tools, take off their coats or make other preparations. Nothing of this is done until after time has been called, and a few minutes before the end of the day or the noon hour, they commence to knock off. Meanwhile, most of the trades are getting more pay for eight hours of labor than they formerly did for ten. The decrease from ten to eight hours' work is equivalent to an increase of twenty-five per cent. in wages and the increase per day in the actual pay the past few years is not less than that. Very few materials have increased in like proportion, while men with capital to invest are obliged, in times like the present, to take much lower rates of interest than formerly."

## Material Market.

### ELEVATORS.

The elevator industry has no reason to find fault with the present state of affairs and, except for the unrest in the labor situation, the prospects are most inviting. An officer of the Otis Elevator Company, when questioned by a representative of the Record and Guide in reference to recent important contracts and the prospect for the future, replied in part: "We have under way elevator equipments for twenty skyscrapers in New York City alone and there are at least twenty more new large buildings projected for the same territory, operations upon which await only a more settled labor market. Moreover, extensive additions are being made to several important buildings and a number of other structures are shortly to be enlarged and improved; and improving a structure almost invariably includes the installing of additional elevator equipment. Notable among the work of this character are the additions and improvements to the Manhattan Life Insurance Company building, at 66 Broadway, which include ten new large hydraulic elevators and the extensive additions and improvements to the Metropolitan Life Insurance building, enlarging same so that it will occupy practically the entire block bounded by 23d and 24th sts, Madison and Fourth aves.

"In the addition to the latter building there will be 23 high-pressure, hydraulic passenger elevators, four hydraulic freight elevators and two electric passenger elevators. Moreover, the 13 elevators in the original structure are to be altered so as to operate by the high-pressure system. This new elevator equipment and the alteration of the old were provided for in a single contract—probably the largest ever signed in this industry. Extensive building operations are likewise in progress in Chicago, Philadelphia, St. Louis, San Francisco, Pittsburg, Atlanta, Boston, Baltimore, Washington and, in fact, all the leading cities, and our contracts for business both within and without New York City represent a much larger aggregate than at any previous time in elevator history."

An interesting and important adjunct to the electric elevator business has developed in the extensive introduction of the new type of full-automatic or push-button elevators, both in private residences in the large cities and in suburban homes. Undoubtedly the extension of circuits for electric lighting has done much to stimulate the sale of automatic elevators, but probably what has had a more important effect is the general understanding on the part of architects and builders of the ease of installation and the facility and advantages of the residence elevator.

"The great majority of private houses built below 110th st, New York City, in the last few years are provided with automatic electric elevators," said the representative of the Otis company. "In fact, at the present time we are installing this type of machine in over sixty residences which, as the building records show, approximates very closely the total number of private residences under construction in this territory. In a row of 18 private residences being constructed for Mr. F. Ambrose Clark, on 74th st, between Central Park West and Columbus av, we are installing one of our automatic elevators in each house. One builder made the remark that 'it is well nigh impossible nowadays to sell a house without an elevator.' "

It is also becoming the rule in high-class dwellings to install more than one elevator. An automatic electric dumb-waiter is quite generally included, as well as a separate passenger elevator for the servants. The fine private residence that is being erected for Capt. J. R. DeLamar at Madison av and 37th st is to contain five Otis elevators.

### BRICK.

No bricks have been sold in Manhattan and the Bronx since Wednesday evening.

This is a stupendous fact. Not a brick can be bought and work on every building which needs them as an absolute requirement for continuation is suspended. The reason, being connected with the general labor trouble, is given elsewhere, but the incident is sufficient to show the possibilities that the brick manufacturers and dealers hold in their hand. In this crisis manufacturers and commission men are co-operating with the dealers. The Dealers have an association, of which Mr. Howland, of Candee & Smith, is president, and the manufacturers also have an association, of which Mr. William K. Hammond is president. While neither has yet been able to move market values, they seem to be effective in this instance, for every

yard is closed to business, and literally locked against the unionized team drivers who are haulers of building material. Not only brick, but cement, lime, sand, and nearly everything used by mason builders are cut off, and lumber also. No great amount of brick is accumulating at the waterside, as manufacturers are holding back in sympathy.

The action of the dealers is a retort to long provocation from outside truckmen and handlers. Dealers as a rule do not keep many trucks of their own, but save time by hiring in localities where they have deliveries to make. They do not object to paying the scale demanded, but they are unalterably opposed to yielding the privilege of employing whom they please and conducting their affairs without assistance from the "business managers" of organized truckmen and handlers.

LUMBER.

The market had assumed a very satisfactory condition at the beginning of the week, as the wholesale men looked at it. Labor reports until the past few days have been of a sufficiently encouraging nature to relieve uncertainty, but the local rush to buy has been altogether checked by the renewal of the fight among the carpenters and the accumulating effects of the truckmen's drive for better terms. (Since Thursday retail business in Manhattan and the Bronx has been mostly suspended, as will appear in another place.) As regards the general wholesale market, hemlock is selling strong on its present base, spruce is bull proposition, and the hardwood situation is also good. Prices have advanced on poplar and oak. Ones and twos poplar are now selling easily at $48 to $50. One-inch plain white oak, firsts and seconds, is bringing $45 to $48. Quartered oak,, $77 to $80.

"I never expect to see cheap lumber on the market again," said a prominent dealer this week. "My observations have been principally in the South. About all the lumber suitable for lumber has been cut everywhere except in East Tennessee, East Texas, Louisiana and Mississippi. There are still valuable virgin pine forests around Gulfport and Hattesburg, Miss., but there are about one hundred sawmills in that district, and it is only a question of time till that valuable timber will be gone. In Texas there are great sawmills going all the time, and in fact, everywhere the culling and cutting is going on. These timber lands have been speculated on for some years, but now they are getting into the hands of great Northern syndicates, and when a Northern syndicate gets hold of the timber lands it holds to it as closely as a sick kitten does to a warm hearth.

"During the past few years gum has come to the front as a valuable hardwood lumber, and it is holding its own well. It not only polishes nicely, but it is pretty and, as for lasting qualities, it will last as well as oak, and in my opinion it will soon be in demand even as much as oak. There is a plenty of gum in the country, and it grows in nearly every State, and it makes good hardwood lumber."

The increase of two cents in the rate on yellow pine lumber from Southern points to Ohio and Mississippi Rivers territory, which went into effect April 15, has been indefinitely withdrawn so far as Georgia points are concerned. This action was forced by the injunction granted by United States Circuit Judge Speer at Atlanta, upon the application of lumber shippers of Georgia. The shippers went to Washington after the tariff was announced and laid their grievance before the Interstate Commerce Commission. No action was taken, and in consequence the injunction was sought and secured. It is only temporary, and the question of whether or not it shall be made permanent will be settled at a hearing to be had within the next few weeks.

CEMENT.

The committees appointed by the cement associations to present plans for an exhibit at the World's Fair of the products of cement are as follows: From the Western Association, B. T. Becker, Milwaukee, Wis.; Chas. F. Wade, Omega, Mich.; P. B. Berry or S. B. Newberry, Sandusky, Ohio. From the Association of Portland Cement Manufacturers, J. C. Robinson, St. Louis, Mo.; Ernest R. Ackerman and W. R. Warren, New York City; John R. Lober. Philadelphia, Pa.

The Lehigh Portland Cement Co., Allentown, Pa., which last year built a modern cement plant at Mitchell, Ind., is now preparing to build another plant at that place, and the new plant is to have a capacity of 3,000 barrels a day.

The Consolidated Rosendale Cement Co., Rosendale, N. Y., is adding to the equipment of some of its plants, making preparations generally for a busy season this summer in the cement industry.

## A New Member of the Board of Examiners.

At a meeting of the Board of Directors of the Real Estate Owners and Builders' Association, held Thursday evening, May 7th, at 500 Fifth av, Mr. Charles Buek was unanimously elected to succeed the late Cornelius O'Reilly as the representative of the association on the Board of Examiners. The following resolution was adopted by the Board:

"Whereas, Death has removed from among us and from the scene of his labors, our esteemed friend and associate, Cornelius O'Reilly, who has been at all times a faithful, earnest and conscientious worker in the Association since its inception, .

"Resolved, That we desire hereby to give expression to our sorrow at the loss which our Board, the Association and the public have sustained, and that a copy of this minute be duly spread upon the records of the Association."

The selection of Mr. Buek for this important position will be recognized as a most appropriate one in the building, real estate and legal circles.

## The New Superintendent of Buildings.

The new Superintendent of Buildings, Mr. Henry S. Thompson, has, as yet, announced no changes in his department, but it is understood that he will appoint a new chief inspector and a new secretary. Mr. Thompson, while young in years, is a builder of exceptional experience and also has the advantage of a scientific training. As the former head of a very large building concern, he comes with a record that few men of his calling anywhere can match. By no means is he lifted from obscurity by being appointed to the most important office that a builder, as such, can occupy in America. While regretting the retirement of his predecessor, the Record and Guide hesitates not to extend its best wishes to the new incumbent.

# Building Operations.

### Details of Wanamaker Stores.

BROADWAY.—The plans for John Wanamaker's new department store as prepared by D. H. Burnham & Co. of Chicago, call for a building 13 stories high, with a basement and subbasement. The building will cover the whole block (immediately south of present Wanamaker store) between Fourth av, Broadway, 8th and 9th sts, the dimensions being 187.10x188x327x339. It will be of steel construction, fireproof throughout, with exterior walls of granite, limestone and terra cotta. It is estimated that 15,000 tons of structural steel will be required.

In the center of the building will be a grand court extending to the 8th floor. The interior woodwork will be of San Domingo mahogany and quartered oak. A large auditorium will be located on the second floor.

The delivery department and wagon concourse will be at the corner of Fourth av and 8th st. There will be about 25 acres of floor space. The estimated cost is between $3,500,000 and $4,000,000. The work of demolishing the old building on the site is rapidly progressing.

The same firm of architects have also prepared the plans for the new Wanamaker store in Philadelphia on the site of the old one at Market and Chestnut sts and 13th and Juniper. It will be 12 stories in height and cover a plot 250x479. It is estimated that 18,000 tons of structural steel will be required for this building, and the cost is placed at $5,000,000. The building will have a floor space of 1,676,500 sq. ft., equal to about 38½ acres, and will be equipped with 62 passenger and freight elevators. The power house will occupy a separate building on Juniper st, below 13th, being connected with the main building by a tunnel through which all pipes will be carried.

The foundations, laid in concrete, will extend 47 feet below the street level, while the building will be 200 feet above this level. The first floor will be 22 feet in height, the second 16 feet, and the other floors 12 feet. The light court in the center of the building will cover an area of 72x152 feet. The plans thus provide for a larger and more costly building than those for the New York store. However, Mr. Wanamaker probably intends to ultimately improve the site of his present store in this city with a new structure.

### Clubhouse to be a Hotel.

MADISON AV.—The Manhattan-Knickerbocker Athletic Clubhouse will be extensively altered and opened as a hotel. The plans are being prepared by Washington Hull, 16 East 23d st. It is a 6-sty building, occupying a plot, 125.5x125, at the southeast corner of Madison av and 45th st. The building was erected in 1885.

### The Mutual Life to Build in Mexico from New York Plans.

Messrs. De Lemos & Cordes, 130 Fulton st, are preparing plans and specifications for an office building to be erected in the City of Mexico for the Mutual Life Insurance Company of New York. The building will have five stories and a basement; it will front on three streets and cover about 11,500 square feet of area. The site is one of the finest in the capitol, as the northerly part of the street block is occupied by the new Post-Office, the Opera House will be erected in the immediate vicinity, and large hotels, office blocks and stores surround the new building.

The second floor will be largely devoted to the offices of the Mutual Life Insurance Company; the first floor, the remainder of the second and the three upper floors will be divided into modern offices for renting. The building will contain two electric elevators, besides plumbing, drainage and electric lighting, and in its fittings will correspond to a first-class New York office building. It will be constructed strictly fireproof, and the foundation will be of steel and concrete of the same description as originally designed by De Lemos & Cordes for the Boker building in Mexico City, a construction which has since been adopted for many large buildings in the Mexican capitol. The front will be of Mexican stone, in light color, and in the Renaissance style,

drawn in severe and dignified character. The main front on Avenida del Cinco de Mayo is 142 ft. long. The cost of the building has as yet not been estimated, but estimates will be asked for shortly.

### Eleventh Avenue Abattoir.

Governor Odell has signed the bill of Senator Elsberg to allow the erection of an abattoir within New York City. The bill had the approval of Mayor Low. Horgan & Slattery, No. 1 Madison av, have drawn the plans for the abattoir which will be a 5-sty brick and stone building, 200x125, situated on the west side of 11th av between 39th and 40th sts. The owners are an association of butchers unconnected with the Western beef interests, the New York Dressed Meat Company. Some opposition has been manifested to the location of the abattoir, but a more popular sentiment approves of it. A Record and Guide representative who enquired in the immediate neighborhood among tenants particularly found no feeling against it existing.

### Trinity Building.

Something is in the wind about the Trinity Building, but as the owners themselves have not yet made up their mind, we cannot say what it is. Instead of being pulled down, the building is being cleaned and put in order for occupation, and several offices have been rented within a day or two, but subject to only three days' notice. This has given rise to rumors that pending the present uncertainty in labor circles, the erecting of a new building has been postponed for a while. At the office of Mr. Gerald A. Brown, of the Equitable Life Assurance Society, who has charge of the building, it was said yesterday afternoon that announcement could not be made as to the company's intentions for several days yet.

### Technical School for Girls.

2D AV.—The Hebrew Technical School for Girls, at 267 Henry st, has acquired the plot, 128.3x74.9, at the southwest corner of 2d av and 15th st and will erect as soon as possible a new building similar to that of the Hebrew Technical School for Boys in Stuyvesant st. The principal frontage of the new site is on the avenue and it is now occupied by three small dwellings. Nathaniel Myers, 25 Broad st, who is the president of the school, says that as soon as title is taken to the property a building committee will be appointed to select an architect, choose plans, and push the work as speedily as is practicable.

### Elihu Root to Build on Park Avenue.

PARK AV.—Carrere & Hastings, 28 East 41st st, are preparing plans for the new dwelling which Secretary of War Elihu Root will erect at the southeast corner of Park av and 71st st, a plot 42.6x96.5, which he purchased this week. It is said that the new dwelling will cost in the neighborhood of $150,000 and that the land cost something over $100,000.

### Mercantile.

25TH ST.—L. C. Maurer, Lemp Building, 11th av and 26th st, has drawn plans for the erection of a 6-sty warehouse, 45x196x irregular, at 137-139 East 25th st and 138 East 26th st. The front will be of brick and limestone trimming, two electric elevators.

15TH ST.—The Van Buren estate will erect a 6-sty loft building, on plot 50x103, at 38 and 40 West 15th st. The building has been leased for ten years to E. F. Caldwell & Co. D'Oench & Yost, 289 4th av, are the architects.

UNION SQUARE.—W. G. Pigueron, 7 East 42d st, has finished the plans for a 9-sty office and loft building, 26x125, irregular, at 32 Union Square and 104-106 East 16th st; cost about $200,000. G. H. Pigueron, 7 East 42d st, is the owner.

5TH AV.—Siebrecht & Son, florists, 409 5th av, will erect a 6-sty building at the northeast corner of 5th av and 38th st, a plot 60.11x100, and No. 1 East 38th st, a plot 25x98.9, the Austin Corbin property, which they have leased for 21 years. Plans have been drawn for the building for the corner plot to be occupied by Siebrecht & Son, but the exact extent of the improvement has not yet been determined.

### New Apartments, Flats and Tenements.

8TH ST.—Bernstein & Bernstein, 72 Trinity pl, are making plans for a 6-sty brick tenement, 44.4x84.6, to be built at 280-282 East 8th st, for Louis Lippman, 170 East 103d st, at a cost of $45,000.

7TH ST.—A. E. Badt, 1 Union square West, is making plans for a 6-sty brick tenement, 50x62, to be built at 41-43 East 7th st for Braverman, Silverman & London, 230 Grand st, at a cost of $50,000.

BLEECKER ST., Nos. 223-225.—Horenburger & Straub, 122 Bowery, are making plans for a 6-sty brick tenement, 40x62, to be built at 223-225 Bleecker st for Isaac Leader and Jacob Bloom, 146 Monroe st, at a cost of $35,000.

MADISON AV.—The Madison Building Co., 15 Cortlandt st, is having plans drawn by Bernstein & Bernstein, 72 Trinity pl, for a 5-sty flat with stores to be erected at the southwest corner of Madison av and 63d st, on a plot 40.5x70.

SCHENECTADY, N. Y.—Bids were opened last week by the Schenectady Board of Education last night for the work on the two ward schools that are to be built under its auspices, and for which an appropriation of $140,000 has been authorized by the Legislature. It was the sense of the meeting that the plans of the architect might be modified somewhat, in order to bring the work within this figure, the bids which were opened, covering only the carpentry and masonry work, the plumbing, ventilating, heating, furnishings and structural iron work, making it certain that the sum set would be inadequate. The modifications suggested are to be made.

TRENTON, N. J.—The Trenton Water Power Co. is having plans prepared for a power plant to be constructed in the neighborhood of the American Bridge Works.

VAILSBURG, N. J.—The Northern Jersey Light, Heat & Power Co. has been incorporated, with a capital of $100,000. Geo. Francis O'Neil and Jos. Wehrle, of Vallsburg, and Thos. Boyle, of Newark, are the incorporators.

PHILADELPHIA, PA.—It is stated that plans are being prepared for four buildings for Hahnemann Hospital; cost in all, $300,000.

BURRILLVILLE, R. I.—It is stated that bids are wanted May 14 for erecting a sanitarium. C. A. Potter, Chairman Comn.

GLOVERSVILLE, N. Y.—The Governor has signed the bill authorizing Gloversville to expend $250,000 for a sewage disposal system.

GUTTENBERG, N. J.—The citizens voted to construct an outlet sewer, to cost about $40,000. Harry Prosser, Town Engr.

NEWARK, N. J.—The Board of Public Works is stated to have voted to lay a 10-in. pipe sewer in 14th av, and a 12-in. sewer in Plane st.

LANCASTER, PA.—Stehli & Co., 105 Greene st, New York, are to install a complete electric power plant in their mill, at Lancaster, Pa., in place of the present steam plant.

NEWARK.—The Lidgerwood Mfg. Company, 96 Liberty st, New York, expect to have plans ready for their new plant at Newark, N. J., about June 1. The first buildings to be erected will be a foundry and power house, for which 250 horse-power of engines and boilers will be required. Later this equipment will be increased to 1,200 horse-power.

SYRACUSE, N. Y.—John Moore, of Syracuse, will build a United States bonded warehouse at the corner of Pearl and Canal sts. It will be a brick building, 140x80, and 4 or 5 stories high. Similar buildings are located in Rochester and Albany.

WASHINGTON, D. C.—D. H. Burnham & Co., of Chicago, have completed plans for the Union Station of the Pennsylvania and Baltimore & Ohio railroads to be built in Washington. They provide for a building 760 feet wide with space in the train shed for eighteen trains side by side, and six more having exit from the tunnel on a lower level, thus making a total of twenty-four trains that may be accommodated at one time in the new structure. Three arches, on pillars and piers, will constitute the trainshed instead of the usual one large arch, thus allowing the height of the main front of the building to be greater than that of the shed. Two hundred carriages may be sheltered at one time in the porticos on each side of the station. A unique and almost necessary feature of the building will be a private entrance and waiting-room for the President of the United States.

## Of Interest to the Building Trades.

A. R. Ross has moved to 542 5th av.

C. L. W. Eidlitz has moved to the Johnson Building, Broadway and 28th st.

Joseph A. Jackson has moved to the Townsend Building, 1123 Broadway.

W. T. Partridge and C. R. Ackerman have gone into partnership and will be located at 156 5th av.

Plans for the New York Central improvements will be submitted to the Board of Estimate some time this month.

William Kent, the well-known engineer and one of the associate editors of the Engineering News, has been offered the position of dean of the L. C. Smith College of Applied Science at Syracuse University.

The Imperial Sand Brick Co. has been incorporated with temporary offices in the Corporation Trust Building, Jersey City, N. J., with a capital stock of $60,000. The incorporators are: L. B. Dalley, Warren N. Akers and K. K. McLaren.

The local Pennsylvania officials are as yet unprepared to give public information of the structure which it is believed the company is about to replace the present buildings on the site bounded by Cortland, West and Washington sts.

The business of F. M. Hausling, dealer in second-hand building materials (lumber, doors, windows, stone, iron, store and office fixtures), with yards at 614 to 622 East 14th st, between Avs A an B, a house well known to the building trades, has become incorporated as the F. M. Hausling Company.

The city hall commission of Newark has finally determined to build the edifice of marble with a white granite substructure. The use of marble instead of limestone will increase the cost about $225,000, bringing the contract price to about $1,200,000, not including site, statuary, approaches, etc. The cost of all will be about $1,600,000.

The Plunger Elevator Co., of Worcester, Mass., has sold, through its New York office, 156 5th av, an elevator with a lifting capacity of 14,000 lbs., to the MacAndrews & Forbes Licorice Co., Camden, N. J. The elevator will carry loaded cars from one floor to another, the total travel being 24 feet. No counterweights or cables will be used in this installation.

Mr. Maximilian Toch is going to Europe to attend the Convention of Applied Chemistry in Berlin. Mr. Toch goes as a delegate of the Society of Chemical Industry and as a delegate of the New York section of the Verein Deutscher Chemiker. He will deliver a lecture in Germany before the convention. He sails on the "Deutschland" May 7th. Mrs. Toch will accompany him.

The Central New England Brick Co., New Britain, Conn., which comprises the leading brick concerns of that section, recently elected officers for the year as follows: George M. Dickerson, president; R. Clifford Merwin, secretary; Virgil M. Palmer, manager and treasurer. Manager Merwin is reported as saying that the various yards of the concern will likely turn out 45,000,000 brick this year as against 40,000,000 last year.

The J. C. Turner Cypress Lumber Company, of New Jersey, has been reorganized under the laws of this State. With main office in this city, and yards at Irvington-on-the-Hudson, the company has a capital stock of $500,000, and is enlarging its dock room at Irvington. The concern handled fifty million feet of cypress last year. The National Lumber Hardwood Association has appointed as their inspector for the Metropolitan District Mr. P. J. Bresnahan.

The appropriation for plans for the new borough hall for Queens, at Long Island City, is $10,000; for plans of interior public baths in Manhattan, $5,000; for plans of new municipal building and additional court building in Brooklyn, $32,000; for plans for completing Gouverneur Hospital, Manhattan, $3,500. The Mayor has approved of the foregoing and also of the appropriation of $225,000 for public comfort stations in Manhattan; and $65,000 for a new fireboat.

A. Wilfred Tuthill, for several years the confidential amanuensis for Mr. Fletcher, the general manager of the Sayre and Fisher Company, manufacturers of fine front bricks, has betaken himself to the outside, in other words, he has been added to their already able staff of salesmen and hereafter he will frequent the offices of architects, builders and contractors in a selling capacity. We feel certain that to a young man with Mr. Tuthill's energy and natural personal magnetism, nothing can come but success.

Berry Brothers, Limited, with offices in New York, Boston, Philadelphia and six other large cities, and factory at Detroit, have issued an exceptionally meritorious trade book entitled "Natural Woods, and How to Finish Them." It treats of the qualities of 25 different kinds of hardwoods, and 19 sorts of oak, and tells how they may be used to the best advantage. The book, which is bound in cloth, speaks of course of Berry Brothers' varnishes, but the information conveyed regarding hardwood finishes is notwithstanding interesting and valuable to painters, decorators, and everybody owning a house. The little volume gives hints not easily obtained elsewhere, and the reader feels that the next time he has a job of finishing to do he will be better prepared to direct it.

## Questions and Answers.

### AGREEMENT.

*To the Editor of* THE RECORD AND GUIDE:

Enclosed find copy of agreement I signed. I made two payments of $5 each. The scale in question, I have no use for. I requested the agent to take the scale back, and was willing to forfeit the payments, but they claimed that under the agreement, I am compelled to continue the payments. Can they compel me to keep the scale and make the payment under the following agreement?

Answer.—They can compel you to make the payment.—Law Editor.

### LEAKY ROOF.

*To the Editor of* THE RECORD AND GUIDE:

What redress can I get from a landlord who refuses to pay damages for a piano damaged by water coming in through a defective roof? The agent was notified and promised to repair it before the damage was done.

Answer.—Landlord is not obliged to make any repairs, or pay any damages for lack thereof on a private dwelling leased, unless by special agreement, and your remedy is then contingent on the validity of such agreement.—Law Editor.

### PLATE GLASS.

*To the Editor of* THE RECORD AND GUIDE:

A contracts (verbally) to remove one plate glass from window of store tenanted by B, with full consent of owner, which A agrees to keep in storage for a certain period, for a certain consideration of moneys. Now, A has removed glass and stored it in his (A's) place, and his agent has given B receipt of same only on card.

Can B compel A to return glass on expiration of period, although he has not paid storage charges and has no written agreement?

Answer.—If A is engaged in the business of storing goods, wares and merchandise for hire, no; but if this is A's only transaction of the sort, yes.—Law Editor.

### PLUMBING.

*To the Editor of* THE RECORD AND GUIDE:

Please answer the following questions:

(1) A forecloses houses in November, 1902. In January, 1903, the contracting plumber put a chattel on the houses. Is the chattel valid?

(2) In February, 1903, the houses were sold at public auction. A few days before the sale the plumber cut out part of the

GROTESQUE MASKS.

On the Facade of the Art Gallery at Bale. Sculptor, Arnold Bocklin.

Wit, humor and sharp satire are the leading characteristics of the six marks by Arnold Bocklin, which adorn the garden facade of the Art Gallery of Bale. . . . From a technical point of view these masks are admirable and the architectural effect perfect. Boldly hewn in sandstone with an accentuation here, a well-defined plane there, d'un seul jet, as the French would describe it. A great deal of the humor, however, would be lost if it were not known that these six figures represented influential merchants of Bale, who, by their mean dealings with the artist, gave him cause for the revenge he took. One and all he has placed them there, to be the laughing stock of the citizens of Bale, and of all who see them as long as the building stands.—Herbert Lespinasse, in the Architectural Record

plumbing work and part of the steam fitting work without any order from court. What action can be taken?

Answer.—If by "chattel," chattel mortgage is meant, such chattel mortgage is valid as between the owner and the plumber. The remedy of the holder of the mortgage, if any he has, is by injunction, to restrain the owner or the plumber from interfering with the premises pending foreclosure, and subject to such remedy by injunction the owner may do what he pleases with his own until title passes to the purchaser under sale in foreclosure.

(2) If the public auction referred to is the referee's sale in foreclosure, then no action can be taken by the purchaser against the plumber. If the purchaser and the mortgage holder are identical the remedy was by injunction, and as the action of the plumber was under authority from the owner the plumber is not responsible in damages.—Law Editor.

PAPERING.

*To the Editor of* THE RECORD AND GUIDE:

A tenant of store and rooms of a certain building, on vacating the same, claims that he had the right to repaper the same rooms with another paper of much inferior quality, and thereby covering certain decorations which were on the walls. He claims that as he put these decorations on the walls, he has the right to cover them, so long as he does not damage the wall in any way. Now, the question is whether the tenant has the right to repaper the walls without the landlord's consent?

Answer.—Outside of special understandings and conditions, upon the details of which must depend a proper answer, the tenant is generally bound to return premises at the end of the term in as good condition as he received them.—Law Editor.

BROKER'S COMMISSION.

*To the Editor of* THE RECORD AND GUIDE:

A broker secures a mortgage loan on property and advises the borrower who the lender is. The borrower tells the broker that he will not accept the loan, this statement, however, being false, as the broker afterwards finds out that the borrower has accepted the loan in writing unknown to him. This being the case, the broker is certain that it is the intention of the borrower to refuse to pay the commission justly due him.

Now, has the broker any recourse before the mortgage is actually placed, the title being searched and papers prepared; or has the broker any lien on the property in question for his commission or services performed? And is the lender under any obligation to protect the broker, knowing that he is the broker in the matter and believing him to be entitled to the commission?

Answer.—The broker's only course is by suit. He has no lien.—Law Editor.

POSSESSION.

*To the Editor of* THE RECORD AND GUIDE:

If A builds a house for B, is A justified in withholding key and possession of house until B pays full amount of contract, B having paid all except last payment?

Answer.—No.—Law Editor.

## Higher Cost of Construction.

"What building contractors must do," said a real estate man this week, when speaking of higher costs, "is to get a larger return from the labor of their mechanics. There must be a development of the principle of putting a steam shovel into a mechanic's hand instead of a spade, of giving him a hammer that will strike five hundred blows a minute instead of one that will only do fifty, and multiply the effect of his skill, strength and time with the aid of machinery.

"The larger view sees a higher plane of living all around; at a higher cost, it is true, but with a corresponding higher income; and if real estate of a certain kind will not pay under this regime, another kind will have to be evolved. If the 3-sty dwelling costs too much for the individual to build and rent advantageously, then it must give place to the 50-sty dwelling financed by the incorporated stock company. Fifty stories? Yes, that is what we are coming to, in the opinion of the 'wiser heads.' Buildings are to be manufactured on the wholesale principle, and fewer and fewer individuals will 'own their own homes' in great centers."

## Builders' Supplies.

The Interstate Builders' Supply Association is now the National Builders' Supply Association. At the last meeting of the executive committee a change was made in the constitution and by-laws of the association, making it more complete and covering more in detail the building material trade. In the future the association will be managed by the president and vice-president from each state represented in the association, the secretary-treasurer and executive committee of seven members.

The car service matters, which were submitted at the last annual meeting at Indianapolis, were given considerable thought and discussion, and the prospects are good for adjusting matters satisfactorily to all concerned.

An effort is being made by the secretary and officers of the National Lime Manufacturers' Association, the Cement Association and the National Plaster Manufacturers' Association to hold their annual meetings the same week, probably at the same hotel in Detroit as the National Builders' Supply Association.

## Appointed Meetings.

The following meetings have been appointed for the current month at the rooms of the Building Trades' Association:

May 4—Marble Industry Employers' Association, 3 p. m.; Hod Hoisting Association, 8 p. m.; Master League of Cement Workers, 3 p. m. May 5—Master Carpenters' Association, 8 p. m.; Master Painters' Association, 8 p. m.; Mechanics' and Traders' Exchange, 3 p. m. May 7—Electrical Contractors' Association, 2 p. m. May 7, 14, 21, 28—Employers' Association of Roofers and Sheet Metal Workers, 3 p. m. May 11—Association of Interior Decorators and Cabinet Makers. May 12—Employing Plasterers' Association, 3 p. m. May 14—Mason Builders' Association, 8 p. m. May 18—Society of Architectural Iron Manufacturers, 8 p. m. May 21—Tile, Grate and Mantel Association, May 28—Masons' Arbitration Board.

## A Bridge Contract Awarded.

Commissioner Lindenthal this week awarded the contract for the construction of the masonry pedestals on top of the tower foundations in the Boroughs of Manhattan and Brooklyn, for Manhattan Bridge, to John P. Rogers, for $150,000. Mr. Rogers was the contractor for the foundations also. The masonry pedestals will consist of four additional courses of granite and limestone. Maine granite and Kingston limestone are specified, also American Portland cement.

—The engineering department of Manhattan Borough have in hand plans for the depression of the street railway tracks at the intersection of 34th st, Broadway and 6th av, and the construction of a tunnel for pedestrians under the surface of this street at that point. They have, however, suspended further work on the proposition, for the reason that the State Railroad Commission suggested a similar plan, more comprehensive in its character. President Cantor presumes that the State Board has power to carry out its recommendations when it gets ready.

—The decision of the Bridge Commissioner, Mr. Lindenthal, that no cars with a wheel flange of less than 1⅛ inches will be permitted to cross the Brooklyn Bridge, comes as a prohibition against running elevated cars on the surface tracks that have been laid along 3d av, south of 65th st, to Ft. Hamilton. The alternative is to substitute all T-rails, and this the Ft. Hamilton people, in order to obtain a through service, may yet prevail upon the railroad management to do, if they try very hard.

—Borough President Cantor believes that the Board of Estimate and Apportionment should have a consulting architect. "I am aware," says Mr. Cantor, "that the Municipal Art Commission has the power, under the Charter, to examine and determine upon the plans presented to it for approval or disapproval for this kind of work. But I submit that the execution of those plans, put in the hands of a proper official, and upon whose recommendation at times these plans are made, would prove a benefit to the city financially and at the same time add greatly to the character of the design for such structures. We have to-day a Consulting Architect for each borough, appointed by the Borough President, and at the same time the Fire, Police, Hospital, Charities and other departments which are in possession of public buildings devoted wholly to the character of public work assigned to them, all prepare plans for the particular kinds of construction they desire, and hence there is a lack of uniformity as the result." Mr. Cantor says that architects of note have advised this course.

—Everybody likes the trolley close by, but not too near. A meeting of West 87th and 88th st property-owners in the Hotel Endicott, this week, followed upon a rumor that the Metropolitan was secretly planning to light upon those streets and decorate them with polished steel tracks some night next summer when the owners will be away in the country. The West End Association seized the opportunity to invite the 87th and 88th st men to join their club, and all would then combine to hold off the trolley company from entering that select precinct.

## CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows; then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

May 1, 2, 4, 5, 6 and 7.

## The 69th Regiment Armory.

APPROPRIATION NOW AMOUNTS TO $650,000, BUT IS BARELY SUFFICIENT—PLANS NOW BEING MODIFIED SOMEWHAT.

The total appropriation for the erection of the armory for the 69th Regiment is now $650,000, the Sinking Fund Commissioners recently having increased it by $200,000; and the plans and specifications are now with the Armory Board for an enlargement of the boiler and machinery room. The following description given mostly by the architects will afford an idea of the appurtenances of the building. It is to be located on the westerly side of Lexington av, between 25th and 26th sts, being 335 feet on 25th st and 305 feet on 26th st, and the width of the block, 197 feet 6 inches on Lexington av. The armory will consist of the Administration Building, 197 feet 6 inches by 100 feet; the Drill Shed, 205 feet by 197 feet 6 inches, and the Hospital Corps Building, 30 feet by 98 feet 9 inches. The basement floor will average 7 feet curb level, to be sub-divided as follows:

The rifle range, 100 yards long, is to extend the full length of buildings, east and west, and to be located next to south wall. The Mess Hall is situated at the north side of Administration Building, and is about 92 feet by 33 feet. To the west is the kitchen (41 feet by 33 feet), with coal vaults under sidewalk; next westerly are five bowling alleys, and the machine and boiler rooms with coal vaults under sidewalk; and ash lift is in the northwest corner of the basement. The rest of the basement under the Administration Building is taken up with an Inspectors' room, rifle range, waiting room, shell room (with closets, urinals and wash basins), store rooms, halls, passages, magazine room; there are two elevators which extend from the basement to the top floor of the Administration Building, serving all the floors of the Administration Building; also the galleries directly.

On the first floor of the Administration Building, north of central entrance on Lexington av, are the officers' rooms, their toilets, and the Quartermaster and Commissary Department. To the south, first is the Armorer's room, adjoining entrance; next the non-commissioned officers' room, their lockers and toilet; on the south facade the board of officers' room, library and reception room, with toilets; occupying the central portion to the west of this building are the stairs, hall and elevators. The main hall runs directly from entrance on centre of Lexington av facade to drill hall, and is crossed by hall running north and south, communicating with all rooms on this floor. On the second floor are twelve company rooms, each containing about 600 square feet, besides a small room for officers adjoining each company room. The third floor holds twelve company locker rooms, each with its own staircase from company room below and to bath above; on this floor on the westerly side of the Administration Building is the gymnasium (41 feet 6 inches by 113 feet 6 inches), and extends up through the fourth floor, which is for toilets, showers, wash basins, a room for the Drum Corps, a Board room, and a general storage room, besides the upper part of gymnasium.

The west wall fronts and rear and west of small (hospital) building on 25th st, and east wall of drill hall above Administration Building, are to be finished in pressed brick. All other exterior work, except roof work, will be "Continental azure blue limestone," with granite, water table base and area wall coping; stonework in building to be the same stone as used on the exterior; the brickwork on the upper parts of the two walls at either end of drill shed to be pressed brick.

The drill hall floor to be of maple; the trim of building to be generally of oak; the Colonel's reception room to be mahogany; building to be plastered throughout except basement and face stone and brickwork in drill hall. Mantels to be furnished in all rooms where there is a fireplace.

The roof construction is to be fireproof and covered with an approved composition roof material. The stair construction will be iron; balcony construction in drill hall also iron.

The architects have submitted an estimate of $650,000 for the entire building (exclusive of furniture), and state that to carry out their design in a first-class, fireproof construction they will have to conform to the very simplest treatment of all details and devote every effort to secure economy throughout, in order to be able to complete the building for $650,000.

—If the Bronx does not secure from the next session of Congress the waterway improvements sought for, it will be for no lack of drive on the part of the borough's leading citizens. The Congressional committee which threaded the course of the Harlem and its shallow tributaries this week were received with honors both civic and military, and escorted, not alone by local representatives in Congress and borough officers, but also by delegations from the North Side Board of Trade, the Harlem Board of Commerce, the Taxpayers' Alliance, the Fordham Club, the Kingsbridge Improvement Association and the Mount Vernon Board of Trade. If a channel with a depth of 20 ft. should be cut through the kills, as the real estate and building interests desire, not only would two and a-half miles be saved in sailing from the Harlem to the Sound, but the water frontage available for business depending on transportation facilities would be increased to that great extent. It is also proposed to dredge out Westchester Creek for 1,300 feet up from Scriven's dock and make the channel 80 feet wide. Also to dredge out East Chester Creek and the Bronx River. The effect of all this would be to build up a great port for domestic commerce, which in a large degree would be independent of Manhattan, as well as to favor the growth of manufacturing. The imagination can conceive of certain Hudson River and Sound steamboat and ferry lines establishing terminals there, thereby giving the borough transportation facilities of a kind for which it has hitherto been dependent on Manhattan. No work yet proposed for the upbuilding of the Bronx has had the importance of this, and in that may lie the principal motive for any opposition that may arise from the direction of Manhattan, which may not view without concern the self-centering for the trans-Harlem community that such a great improvement might lead to.

## MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.
